Project
SCSE 3203

1. Based on the same project, provide your unique project name for your team. Name your application that represent main function of the project.
2. Use Azure DevOps, or Trello/JIRA/GitHub or any other project management collaborative tools. Using your tool, provide task for each member clearly and divide the board as To Do, In Progress & Done.
3. The project must have at least two different roles.
4. The project must use Spring MVC framework. Using Spring Boot is allowed.
5. Each project must have minimum 8 modules. Each member from each group should in charge two modules.

Important Dates

Mark Distribution

1. Phase 1: Project Progress Demo

i. Duration: 10 - 15 minutes.
ii. Explain project modules and overall system architecture (team level).
iii. Demo progress:

- Complete front-end view using JSP or Thymeleaf for all modules.
- Demonstrate your own module in detail. Minimum 2 modules for each member.
- The code should integrate as a team's project.

iv. Attendance Requirement:

- Each member must attend and demo their own module.
- No mark will be given if absent from the demo.

Note: Keep consistent UI across modules. Show data flow and navigation clearly.
