		Topic
G1		Signal Conditioning: Defination and Function
G2		Type of Signal Conditioning: Amplification
G3		Type of Signal Conditioning: Filtering
G4		Signal Conditioning: Voltage Divider Method
G5		Signal Conditioning: Attenuator Method
G6		Data Acquisition System (DAQ): Defination and Function
G7		Types of DAQ and Key componets of DAQ
G8		Data Acquisition Hardware (Data Logger)
G9		Interfaces: Defination and Function
G10		Industrial Instrumentation Protocol
G11		Analog to Digital (ADC)

G12		Digital to Analog (DAC)
G13		Communication Interfaces and Protocol
