Purpose of This Document

This document presents my proposed course distribution for Semesters 5 to 8 for your review and approval. **The plan assumes I pass all of my current Semester 4 courses, including the two repeat courses.** If I fail any Semester 4 course, the plan will be revised accordingly before registration.

My question: If I have no failed course in Semester 4, may I proceed with the distribution shown below?

Current Academic Standing

CGPA	2.48 (end of Year 2, Sem 1)	**Status**	Active
Credits earned	45 (end of Year 2, Sem 1)	**Projected**	~63 after Sem 4 (if all passed)

Semester 4 — In Progress (the assumption)

Courses currently registered this semester (202520262):

Code	Course	Credit	Note
SCSE2233	Software Design & Architecture	3	
SCSE2243	Application Development Project I	3	
SCSM2223	Cross-Platform Application Development	3	
SCSP3213	Business Intelligence	3	*Program elective (chosen)*
SCSR2213	**Network Communications**	3	*REPEAT*
SCST1223	**Probability & Statistical Data Analysis**	3	*REPEAT*
	TOTAL CREDIT	**18**	**Cumulative: ~63**

Deferred from this semester to make room for the two repeats: ULRS1022 Philosophy & Current Issues (2 cr) and UHLB2122 Professional Communication Skills 1 (2 cr). Both are reabsorbed in Semester 5 below.

One Item to Confirm

Does **UHLB1112 English Communication Skills (2 cr, taken in Sem 1)** count toward the 128-credit graduation requirement? If it does, the make-up Free Elective I may not be needed, and Semester 8 would reduce from 19 to 16 credits. I will follow your guidance on this.
