PLO	PART A - REPORT DOCUMENTATION					
	Criteria	**Excellent (4)**	**Good (3)**	**Fair (2)**	**Unsatisfied (1)**	**Marks**
PLO3	Introduction & Conclusion **[5marks]**	**Complete** and **well described** the Introduction sub-sections namely Scope and Overview. Concludes **overall** findings and lesson learnt	**Moderately complete** and **described** the Introduction sub-sections namely Scope and Overview. Concludes **some** findings and lesson learnt	The Introduction sub-sections namely Scope and Overview were described, but **insufficient** information provided. Concludes **insufficient** findings and lesson learnt	The Introduction sub-sections namely Scope & Overview and Conclusion section were **poorly** and **unclear** described with some **missing** information	
		[4 - 5]	**[3 - 3.9]**	**[2 - 2.9]**	**[0 - 1]**	
PLO3	Use Case diagram (UCD) - completeness **[10marks]**	The developed UCD is **complete** and **relevant** to represent functional perspective of requirements model for TicTacToe TnL app case study. All **appropriate UC components** namely **system boundary, system name, actors, use cases** and its **relationships** (<**include**> / <**extend**>) were identified. UCD is **briefly explained** in paragraph	The developed UCD is **moderately** complete and and relevant to represent functional perspective of requirements model for TicTacToe TnL app case study. Appropriate UC components namely system boundary, system name, actors, use cases and its relationships (<include> / <extend>) were **moderately** identified. UCD is **somewhat** explained in paragraph	The UCD were developed, but **incomplete** and **some inaccurate** UC components namely system boundary, system name, actors, use cases and its relationships (<include> / <extend>) were identified. UCD is **insufficiently** explained in paragraph	The UCD were **poorly** developed, **inaccurate** and **missing** UC components namely system boundary, system name, actors, use cases and its relationships (<include> / <extend>) were incorrectly identified. UCD is not explained in paragraph	
		[7.5 - 10]	**[5 - 7.4]**	**[2.5 - 4.9]**	**[0 - 2.4]**	
PLO3	Use Case (UC) diagram - correctness **[10marks]**	Developed UC diagram **adhered** to general **rules** and **guidelines** i.e. correct shapes/ notation/ symbols were applied, use cases with <verb><noun>, does not show sequence/behavior, singular actor, use cases relationship with correct stereotype <include> / <extend>	Developed UC diagram adhered to **most rules** and **guidelines** i.e. most shapes/ notation/ symbols were applied, most use cases with <verb><noun>, does not show sequence/behavior, singular actor, most use cases relationship with correct stereotype <include> / <extend>	Developed UC diagram adhered to **some rules** and **guidelines** i.e. appropriate shapes/ notation/ symbols were applied, use cases with <verb><noun>, does not show sequence/behavior, singular actor, use cases relationship with **incorrect** stereotype <include> / <extend>	Developed UC diagram inappropriately adhered to **rules** and **guidelines** i.e. inappropriate shapes/ notation/ symbols were applied, inappropriate use cases with <verb><noun>, tshow sequence/behavior, inappropriate singular actor, use cases relationship with **incorrect** stereotype <include> / <extend>	
		[7.5 - 10]	**[5 - 7.4]**	**[2.5 - 4.9]**	**[0 - 2.4]**	
PLO3	UML Activity diagram (AD)- completeness **[10marks]**	The ADs were **completely** developed for **all identified use cases** in the UCD. **Complete activities or flow of events** for related use cases based on **scenarios** in documentation (**NF, AF & EF**) were included. AD is **briefly explained** in paragraph.	The ADs were **moderately** developed for identified the use cases in the UCD. **Most activities or flow of events** for related use cases based on **scenarios** in documentation (**NF, AF & EF**) were **moderately** included. AD is **somewhat explained** in paragraph.	The ADs were **incomplete** for the identified use cases in the UCD. **Inaccurate** flow of events for related use cases based on **scenarios** in documentation (**NF, AF & EF**) were included. AD is **insufficiently** explained in paragraph.	The ADs were **poorly developed** for the identified use cases in the UCD. **Missing** flow of events for related use cases based on **scenarios** in documentation (**NF, AF & EF**). AD is **not** explained in paragraph.	

		[7.5 - 10]	[5 - 7.4]	[2.5 - 4.9]	[0 - 2.4]	
PLO3	**UML Activity diagram (AD)- correctness [10marks]**	**Correct** shapes/ notation/ symbols were applied i.e. start-end, fork-join activities (concurrent / parallel events), branch-merge activities (alternative paths events). Used appropriate vertical view if multiple lanes are applied.	**Most appropriate** shapes/ notation/ symbols were applied i.e. start-end, fork-join activities (concurrent / parallel events), branch-merge activities (alternative paths events). Vertical view if multiple lanes were used is somewhat applied.	**Some** appropriate shapes/ notation/ symbols were applied i.e. start-end, fork-join activities (concurrent / parallel events), branch-merge activities (alternative paths events). Vertical view if multiple lanes were used is not applied.	**Inappropriate** shapes/ notation/ symbols were applied i.e. start-end, fork-join activities (concurrent / parallel events), branch-merge activities (alternative paths events). Vertical view if multiple lanes were used is **not** applied.	
		[7.5 - 10]	[5 - 7.4]	[2.5 - 4.9]	[0 - 2.4]	
PLO3	**UML Domain Class diagram (DCD)- completeness [10marks]**	A **complete** DCD was developed to represent data perspective of requirements model for TicTacToe TnL app case study. All **relevant objects/classes** and its **relationships/associations** were identified . DCD is **briefly explained** in paragraph.	A **moderately complete** DCD was developed to represent data perspective of requirements model for TicTacToe TnL app case study. Most **relevant objects/classes** and its **relationships/associations** were **moderately** identified . DCD is **somewhat explained** in paragraph.	**Incomplete** DCD was developed to represent data perspective of requirements model for TicTacToe TnL app case study. **Inaccurate objects/classes** and its **relationships/associations** were identified . DCD is **insufficiently explained** in paragraph.	**The** DCD was **poorly** developed to represent data perspective of requirements model for TicTacToe TnL app case study. **Missing objects/classes** and its **relationships/associations** were not identified . DCD is **not explained** in paragraph.	
		[7.5 - 10]	[5 - 7.4]	[2.5 - 4.9]	[0 - 2.4]	
PLO3	**UML Domain Class diagram (DCD)- correctness [10marks]**	**Correct** shapes/ notation/ symbols were applied i.e. class with entity name and appropriate attributes. **Correct** relationships/**associations** between classes i.e. **generalization**, **composition**, **aggregation** were specified. **Correct cardinalities/multiplicities** for the associations were defined.	**Most** appropriate shapes/ notation/ symbols were applied i.e. class with entity name and appropriate attributes. **Most** appropriate relationships/associations between classes i.e. generalization, composition, aggregation were **moderately** specified. **Most** cardinalities/multiplicities for the associations were **moderately** defined.	**Some** appropriate shapes/ notation/ symbols were applied i.e. class with entity name and appropriate attributes. **Some** appropriate relationships/associations between classes i.e. generalization, composition, aggregation were specified. **Some** cardinalities/multiplicities for the associations were defined.	**Inppropriate** shapes/ notation/ symbols were applied i.e. class with entity name and appropriate attributes. **Inppropriate** appropriate relationships/associations between classes i.e. generalization, composition, aggregation were specified. **Inppropriate** cardinalities/multiplicities for the associations were defined.	
		[7.5 - 10]	[5 - 7.4]	[2.5 - 4.9]	[0 - 2.4]	
PLO3	**UML State-transition diagram (STD)- completeness [5marks]**	**Complete** STDs was developed to represent critical classes (identified in DCD) and its behavioural changes during its lifetime in system operations. **All relevant states** and its **transitions** were identified . STD is **briefly explained** in paragraph.	**Moderately complete** STDs was developed to represent critical classes (identified in DCD) and its behavioural changes during its lifetime in system operations. **Most relevant states** and its **transitions** were identified . STD is **somewhat explained** in paragraph.	**Some** STDs was developed to represent critical classes (identified in DCD) and its behavioural changes during its lifetime in system operations. **Some relevant states** and its **transitions** were identified . STD is **insufficiently explained** in paragraph.	**Poorly** STDs was developed to represent critical classes (identified in DCD) and its behavioural changes during its lifetime in system operations. **Missing relevant states** and its **transitions** were **not** identified . STD is **not explained** in paragraph.	
		[4 - 5]	[3 - 3.9]	[2 - 2.9]	[0 - 1]	

PLO3	UML State-transition diagram (STD)-correctness [10marks]	**Correct** shapes/ notation/ symbols were applied i.e. start/ends states, relevant states. **Correct transition specification (event [condition] / action]** were defined between states.	**Most** appropriate shapes/notation/symbols were applied i.e. start/ends states, relevant states. Most transition specification (event [condition] / action] were **moderately** defined between states.	**Some** appropriate shapes/notation/symbols were applied i.e. start/ends states, relevant states. **Some** transition specification (event [condition] / action] were defined between states.	**Inappropriate** shapes/ notation/ symbols were applied i.e. start/ends states, relevant states. **Missing** transition specification (event [condition] / action] between states.	
		[7.5 - 10]	[5 - 7.4]	[2.5 - 4.9]	[0 - 2.4]	
PLO3	References [2marks]	**Complete** and **accurately** applied **APA style guidelines** in writing the cited references. **Totally** used only books, journals or other **reliable** internet resources.	**Moderately complete** and **accurately** applied **APA style guidelines** in writing the cited references. **Adequately** used only books, journals or other **reliable** internet resources.	**Incomplete** and **inaccurate** application of **APA style guidelines** in writing the cited reference. Used at least one book or journal source. One or more resources was Wikipedia or another unreliable resource.	**No** application of **APA style guidelines** in writing the cited reference. Used Wikipedia or other **unreliable** internet resources. **None** of the resources are books or from journals.	
		[2]	[1.5]	[1]	[0.5 -0]	
PLO3	Overall Report Quality [3marks]	**Complete** organization of report body with cover page, table of content, page number. **Minimum** typo errors	**Moderately** complete organization of report body with cover page, table of content, page number. Contains **minor** typo errors	**Incomplete** organization of report body with cover page, table of content, page number. Contains **some** typo errors	**Poor** organization of report body with cover page, table of content, page number. Contains **major** typo errors	
		[3]	[2]	[1]	0	
PLO3	List of Prrompts [5marks]	The list of prompts is **highly relevant, well-organized**, and covers a broad range of ideas that supported the user requirements deficition process.	The list of prompts is **relevant** and covers the main aspects but **lacks some depth or breadth** to suppoert user requirements deficition process.	The list of prompts is **partially relevant but may have gaps** or not fully address the user requirements deficition process.	The list of prompts is **irrelevant**, **incomplete**, or lacks sufficient depth to support the user requirements deficition process.	
		[4 - 5]	[3 - 3.9]	[2 - 2.9]	[0 - 1]	
PLO8	Presentation Creativity [10marks]	The presentation is highly creative, engaging, and well-organized. Visuals and tools are used effectively to enhance communication and engagement.	The presentation is organized, and visuals/tools are used but could be more engaging or professional.	The presentation is somewhat organized but lacks engagement or effective use of visuals/tools.	The presentation is disorganized, unclear, or lacks visuals/tools, significantly affecting communication effectiveness.	
		[7.5 - 10]	[7.4 - 5]	[4.9 - 2.5]	[0 - 2.4]
