ABDULAZIZ TAWFIK OTHMAN A20EC4004

Started on	Saturday, 27 November 2021, 8:58 PM
State	Finished
Completed on	Saturday, 27 November 2021, 9:58 PM
Time taken	1 hour
Marks	22.00/30.00
Grade	**11.00** out of 15.00 (**73%**)

Question 1

Complete

Not graded

Choose your class section.

*Please choose correctly.

- (•) 01 - Dr. Zuriahati
- ( ) 02 - Mr Fariz
- ( ) 03 - Dr. Zuriahati
- ( ) 04 - Dr Bander
- ( ) 15 - Dr Shahida (MJIIT)

Your answer is correct.

The correct answer is: 01 - Dr. Zuriahati

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:06	Saved: 01 - Dr. Zuriahati	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Complete**	**0.00**

Question 2

Correct

Mark 1.00 out of 1.00

Operating System is an interface between _____ and _____

- Applications, Hardware
- User, Applications
- User, CPU
- User, Hardware ✔

Your answer is correct.

The correct answer is:
User, Hardware

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:06	Saved: User, Hardware	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**

Question 3

Correct

Mark 1.00 out of 1.00

Choose **TRUE** statement regarding the direct communication?

- A communication link can be associated with *N* number of process (*N* = max. number of processes supported by system
- A communication link is associated with exactly two processes ✔
- Exactly two link exists between each pair of processes
- Exactly *N/2* links exist between each pair of processes (*N* = max. number of processes supported by system

Your answer is correct.

The correct answer is:
A communication link is associated with exactly two processes

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:06	Saved: A communication link is associated with exactly two processes	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**

Question 4

Incorrect

Mark 0.00 out of 1.00

Choose **TRUE** statement(s) regarding Bootstrap program.

- [x] Initialize all aspect of the system ✔
- [x] Load the kernel into main memory ✔
- [ ] Acts as a middleware between user and resources
- [x] Reside in the firmware ✖

Your answer is incorrect.

The correct answers are:
Load the kernel into main memory,

Initialize all aspect of the system

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:06	Saved: Initialize all aspect of the system ; Load the kernel into main memory ; Reside in the firmware	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Incorrect**	**0.00**

Question 5

Correct

Mark 1.00 out of 1.00

Which of the following is **NOT** an example of Multiprogramming Operating System?

- Linux
- Mac OS X
- MS-DOS ✔
- Windows

Your answer is correct.

The correct answer is:
MS-DOS

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:15	Saved: MS-DOS	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**

Question 6

Correct

Mark 1.00 out of 1.00

The clustered system has been widely used in the following systems **EXCEPT**?

- Scientific computing
- Weather forecasting
- Payroll computing system ✔
- Super computing system

Your answer is correct.

The correct answer is:
Payroll computing system

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:15	Saved: Payroll computing system	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**

Question 7

Correct

Mark 1.00 out of 1.00

Following are the types of user interface of the Operating System **EXCEPT**?

- (●) device interface ✔
- ( ) command line interface
- ( ) graphic user interface
- ( ) batch interface

Your answer is correct.

The correct answer is:
device interface

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:15	Saved: device interface	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**

Question 8

Incorrect

Mark 0.00 out of 1.00

Process to change states can be depicted by current activity of a process using _____.

- State Transition Diagram
- Two-State Event
- State Event Diagram ✖
- Five-State Running

Your answer is incorrect.

The correct answer is:
State Transition Diagram

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:15	Saved: State Event Diagram	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Incorrect**	**0.00**

Question 9

Correct

Mark 1.00 out of 1.00

Which of the following is **NOT** provided by Operating System Service?

- Accounting
- I/O operations
- Gaming ✔
- User interface

Your answer is correct.

The correct answer is:
Gaming

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:27	Saved: Gaming	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**

Question 10

Correct

Mark 1.00 out of 1.00

Which of the following are two operations that provided by the Inter-Process Communication?

- write and delete message
- receive and send message ✔
- send and delete message
- delete and receive message

Your answer is correct.

The correct answer is:
receive and send message

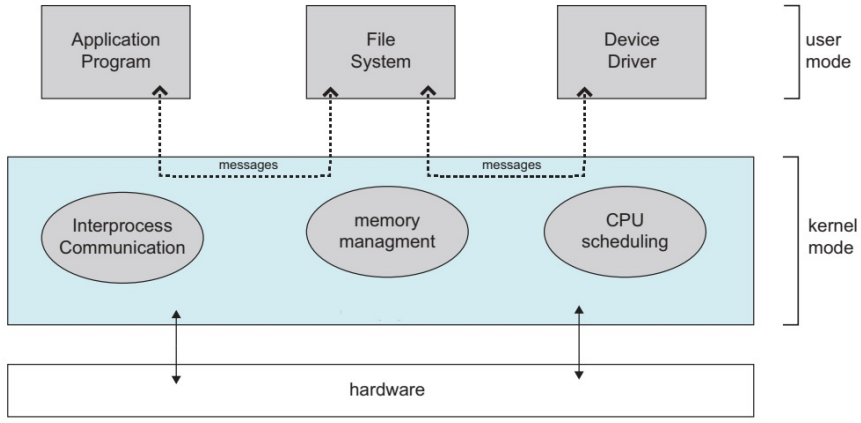

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:27	Saved: receive and send message	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**

Question 11

Correct

Mark 1.00 out of 1.00

Based on the given figure, what type of Operating System structure is indicated?

- Microkernel ✔
- Modules
- Simple structure
- Layered

Your answer is correct.

The correct answer is:
Microkernel

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:27	Saved: Microkernel	Answer saved	
3	27/11/21, 21:58	Attempt finished	Correct	1.00

Question 12

Correct

Mark 1.00 out of 1.00

These programs function is to create, modify the content of files stored and to search contents of files or perform transformations of the text.

The statement refers to:

- file modification ✔
- communications
- background services
- status information

Your answer is correct.

The correct answer is:
file modification

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:27	Saved: file modification	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**

Question 13

Correct

Mark 1.00 out of 1.00

Which of the situations reflect the operation of a multiprocessor systems?

- Assist the gamers to have a better interface and response while playing games.
- Open Web browser, word document and MP3 player simultaneously. ✔
- Allow to read the comment, get info related to the number of viewers, while going Live on Instagram.
- Solve c omplex equation at one time.

Your answer is correct.

The correct answer is:
Open Web browser, word document and MP3 player simultaneously.

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:35	Saved: Open Web browser, word document and MP3 player simultaneously.	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**

Question 14

Incorrect

Mark 0.00 out of 1.00

Which of the following is **NOT** part of the privilege instructions?

- Turn off all interrupts
- Modify entries in the device-information status table
- Reading the status of processor
- Change mode of execution ✖

Your answer is incorrect.

The correct answer is:
Reading the status of processor

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:35	Saved: Change mode of execution	Answer saved	
3	27/11/21, 21:58	Attempt finished	Incorrect	0.00

Question 15

Partially correct

Mark 0.50 out of 1.00

The computer systems that allows more than one process execution at a time is known as:

- [x] Multiprocessing System ✔
- [ ] Single Core System
- [ ] Single processing Systems
- [ ] Hyper Threading System

Your answer is partially correct.

You have correctly selected 1.
The correct answers are:
Hyper Threading System ,

Multiprocessing System

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:35	Saved: Multiprocessing System	Answer saved	
3	27/11/21, 21:58	Attempt finished	Partially correct	0.50

Question 16

Correct

Mark 1.00 out of 1.00

Select the **FALSE** statement regarding the Operating System.

- (•) Act as a firmware in handling user and computer hardware ✔
- ( ) Manage memory, file and I/O devices
- ( ) Mapping the selected program to be executed in main memory
- ( ) Act as a middleware in between user and computer hardware

Your answer is correct.

The correct answer is:
Act as a firmware in handling user and computer hardware

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:35	Saved: Act as a firmware in handling user and computer hardware	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**

Question 17

Correct

Mark 1.00 out of 1.00

Which of the following Operating Systems that can be used in medical imaging system?

- Interactive system
- Network operating system
- Real-time operating system ✔
- Time-sharing operating system

Your answer is correct.

The correct answer is:
Real-time operating system

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:48	Saved: Real-time operating system	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**

Question 18

Correct

Mark 2.00 out of 2.00

Currently CPU is executing Process Y. Suddenly, I/O interrupt arises. Process X is in ready state and coming to running state.
Then, context switching happens when ___(A)___ and ___(B)___.

A saving the state of Process Y into PCB(Y) ✔

B loading the saved state of Process X from PCB(X) ✔

Your answer is correct.

The correct answer is:
A → saving the state of Process Y into PCB(Y),

B → loading the saved state of Process X from PCB(X)

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:48	Saved: A -> saving the state of Process Y into PCB(Y); B -> loading the saved state of Process X from PCB(X)	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**2.00**

Question 19

Partially correct

Mark 2.00 out of 4.00

Match the resource managements (A - D)that suitable to its Operating Sytem activity.

A	Provide a mechanism to synchronize the process.
B	Optimize CPU utilization and response time.
C	Perform disk scheduling.
D	Provide a defense system against internal and external attacks.

C	Memory management	✗
D	Protection and security	✓
A	Process management	✓
B	I/O systems	✗

Your answer is partially correct.

You have correctly selected 2.
The correct answer is:
C → Mass storage management,

D → Protection and security,

A → Process management,

B → Memory management

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:48	Saved: C -> Memory management; D -> Protection and security; A -> Process management; B -> I/O systems	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Partially correct**	**2.00**

Question 20

Correct

Mark 1.00 out of 1.00

What is the first program run on a computer when the computer start?

- (●) Bootstrap ✔
- ( ) Application Program
- ( ) System Program
- ( ) DOS

Your answer is correct.

The correct answer is:
Bootstrap

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:48	Saved: Bootstrap	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**

Question 21

Incorrect

Mark 0.00 out of 1.00

Choose **TWO** features that uniquely identify the Batch, Interactive and Real-time Operating Systems.

- [x] Location of data during the execution ✖
- [x] Response Time ✔
- [ ] Method of data entering the system
- [ ] Location of data after the execution

Your answer is incorrect.

The correct answers are:
Response Time,

Method of data entering the system

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:55	Saved: Location of data during the execution ; Response Time	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Incorrect**	**0.00**

Question 22

Partially correct

Mark 2.00 out of 3.00

As processes enter the system, the processes migrate among the process scheduling queues. What are the queues involved?
___(A)___ contains a list of proceses in the system
___(B)___ is a list of proceses that residing in main memory and are ready and waiting to execute
___(C)___ is a list of processes waiting for the completion of device request

A Program queue ✖

B Ready queue ✔

C I/O queue ✔

Your answer is partially correct.

You have correctly selected 2.
The correct answer is:
A → Job queue,

B → Ready queue,

C → I/O queue

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:55	Saved: A -> Program queue; B -> Ready queue; C -> I/O queue	Answer saved	
3	27/11/21, 21:58	Attempt finished	Partially correct	2.00

Question 23

Correct

Mark 1.00 out of 1.00

System calls can be divided into few categories **EXCEPT**?

- File manipulation
- Process control
- Communication
- CPU Prevention ✔

Your answer is correct.

The correct answer is:
CPU Prevention

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:55	Saved: CPU Prevention	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**

Question 24

Partially correct

Mark 0.50 out of 1.00

A process is more than a program code, which uses the___(A)___ in the memory that contains the global variables and comprise a process ___(B) ___ which contains temporary data.

A text ✖

B stack ✔

Your answer is partially correct.

You have correctly selected 1.
The correct answer is:
A → data section,

B → stack

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:55	Saved: A -> text; B -> stack	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Partially correct**	**0.50**

Question 25

Correct

Mark 1.00 out of 1.00

Choose the **FALSE** statement regarding the virtualization in computing environments.

- Run multiple OSes for each server machine in data server.
- Test the applications without having multiple systems.
- Allow users to use multiple OSes without having multiple systems.
- Speed up compile time in developing multi platform application. ✔

Your answer is correct.

The correct answer is:
Speed up compile time in developing multi platform application.

Response history

Step	Time	Action	State	Marks
1	27/11/21, 20:58	Started	Not yet answered	
2	27/11/21, 21:58	Saved: Speed up compile time in developing multi platform application.	Answer saved	
3	**27/11/21, 21:58**	**Attempt finished**	**Correct**	**1.00**
