PSDA PROJECT 1 PROPOSAL
Due: Week 4, 7 – 11 APRIL 2025 (5.00pm)

GROUP NAME: **STATSKETEERS**

SECTION: **05**

Proposed Topic	Caffeine consumption among undergraduate students in UTM
Proposed Population	All UTM students
Proposed Sample	60 respondents from UTM undergraduate students

LIST OF POSSIBLE QUESTIONS

Please make sure you include all Levels of Measurement types

Bil	Questions	Answers	Level of Measurement	Suggestion Input Type
1	Gender	Male/female	Nominal	Radio button
2	Year of Study	Year 1 / Year 2 / Year 3 / Final Year	Nominal	Radio button
3	Faculty	List of Faculty	Nominal	Radio button
4	Do you love to consume any type of caffeine?	Coffee-based / tea-based / chocolate-based/ soft drink or soda /energy drink/bubble tea or boba	Nominal	Radio button
5	How many cups of caffeinated drinks do you consume per week?	0/1/2/3/4/5/6/7/ Others	Ratio	Radio button
6	Do you prefer to make a caffeine drink on your own or buy it at the café?	Make on your own/ Buy at store/ Both	Nominal	Radio button
7	Which of the following caffeinated drinks do you usually consume?	Coffee-based / tea-based / chocolate-based/ soft drink or soda /energy drink / bubble tea or boba	Nominal	Radio button
8	What time of day do you usually consume caffeine?	Morning / Afternoon / Evening / Late Night / All the time	Ordinal	Radio button

9	What is your main reason for consuming caffeine?	Avoid sleepiness/ Maintain focus/ Daily Routine/ Favourite Drink/ Others	Nominal	Radio button
10	Do you feel that caffeine helps improve your focus or energy?	Rate Value	Ordinal	Scale
11	How long (in hours) do you feel the effectiveness after you consume caffeine?	0/1/2/3/4/5/6/Others	Ratio	Radio button
12	Please rate the percentage of the effectiveness of caffeine on your body.	0/25/50/75/100	Ratio	Radio button
13	Rate your level of addiction to caffeine	0/1/2/3/4	Ordinal	Radio button
14	On days you consume caffeine, does your sleep quality change?	Metric Value	Ordinal	Scale
15	How long can you stay awake after taking caffeine?	0 hours / 1 hour / 2 hours / 3 hours / 4 hours	Ratio	Radio Button

**Please add more possible questions (8-12 questions)*

LIST OF POSSIBLE ANALYSIS

These are examples, please remove and add your own

Bil	Analysis
1	Preference for the type of caffeine.
2	Comparison of which faculty has the most caffeine drinkers.
3	Preferences on how they can get the caffeine.
4	Analyze the time they consume caffeine and the main reason they consume it.
5	Analyze how caffeine improves their focus and how long they can feel its effectiveness.
6	Analyze the addiction of taking caffeine based on gender.
7	Analyze how their body reacted to caffeine based on sleep quality changes and stay awake after taking caffeine.

**please add more possible analysis*
