SECD2523 – DATABASE
SEM I – 2021/2022
WEEKLY TASK (TOPIC 4 – ERD)

Exercise 1 - A Hospital Case

*"**Patients** are treated in a single **ward** by the doctors assigned to them. Usually each patient will be assigned a single **doctor**, but in rare cases they will have two. Healthcare **assistants** also attend to the patients, a number of these are associated with each ward."*

Exercise 2 - Football Club

*"A football **club** has a name and a ground and is made up of **players**. A player can play for only one club and a **manager**, represented by his name manages a club. A footballer has a registration number, name and age. A club manager also buys players. Each club plays against each other club in the league and matches have a date, venue and score."*

Exercise 3 - Bus Company

*"A Bus Company owns a number of busses. Each **bus** allocated to a particular **route**, although some routes may have several busses. Each route passes through a number of **towns**. One or more **drivers** are allocated to each **stage** of a route, which corresponds to a journey through some or all of the towns on a route. Some of the towns have a **garage** where busses are kept and each of the busses are identified by the registration number and can carry different numbers of passengers, since the vehicles vary in size and can be single or double-decked. Each route is identified by a route number and information is available on the average number of passengers carried per day for each route. Drivers have an employee number, name, address, and sometimes a telephone number."*

Exercise 4 - University Database

*"A **lecturer**, identified by his or her number, name and room number, is responsible for organising a number of course **modules**. Each module has a unique code and also a name and each module can involve a number of lecturers who deliver part of it. A module is composed of a series of **lectures** and because of economic constraints and common sense, sometimes lectures on a given topic can be part of more than one module. A lecture has a time, room and date and is delivered by a lecturer and a lecturer may deliver more than one lecture. **Students**, identified by number and name, can attend lectures and a student must be registered for a number of modules. We also store the date on which the student first registered for that module. Finally, a lecturer acts as a tutor for a number of students and each student has only one tutor."*
