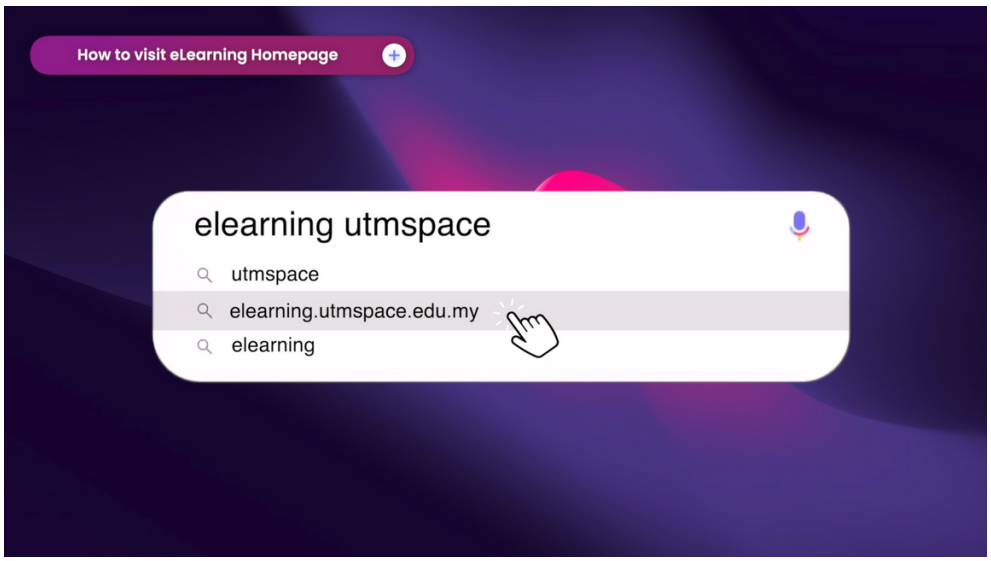
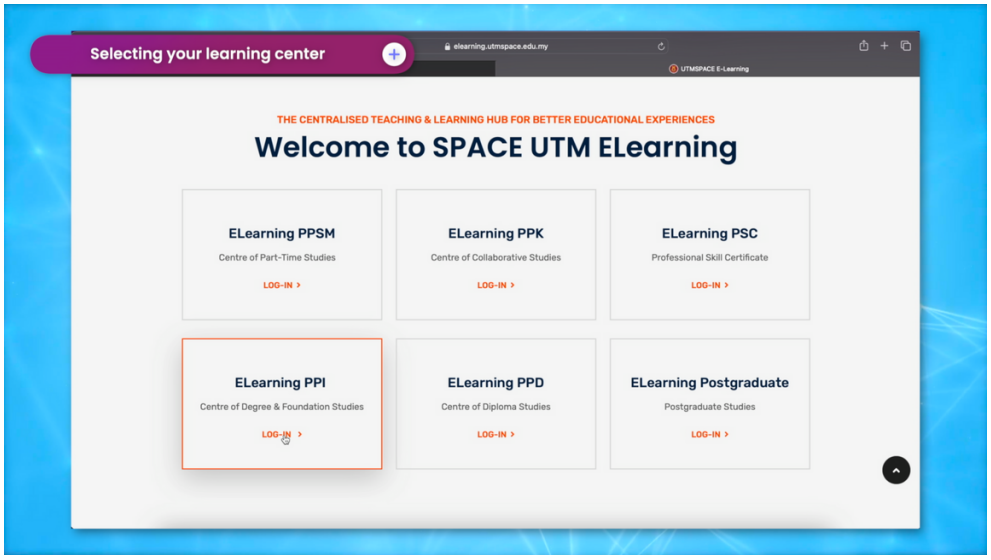
1. Main Page

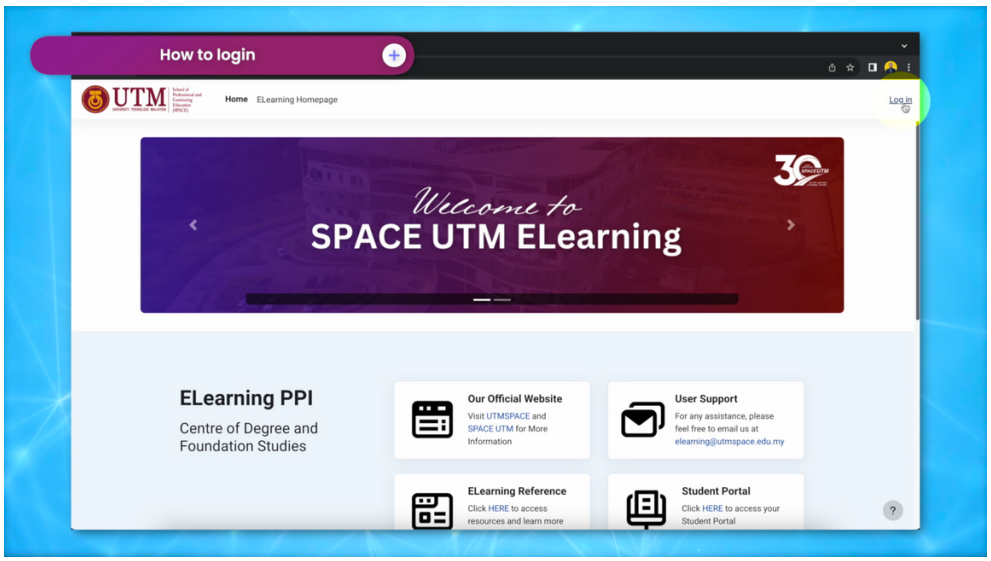


To start SPACE UTM eLearning, simply go to our eLearning main page at elearning.utmspace.edu.my.

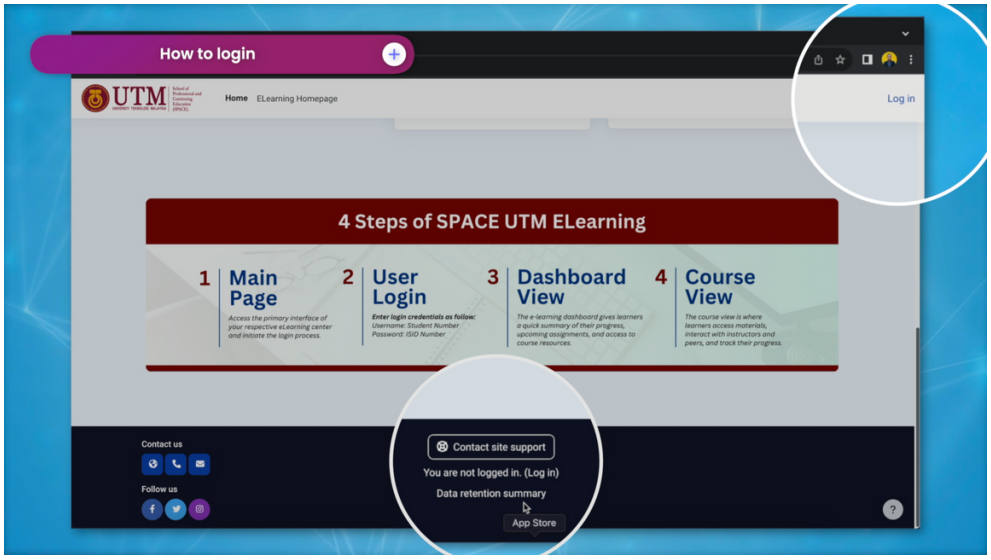


Once you're there, you'll need to select your respective learning centre.

1. Main Page

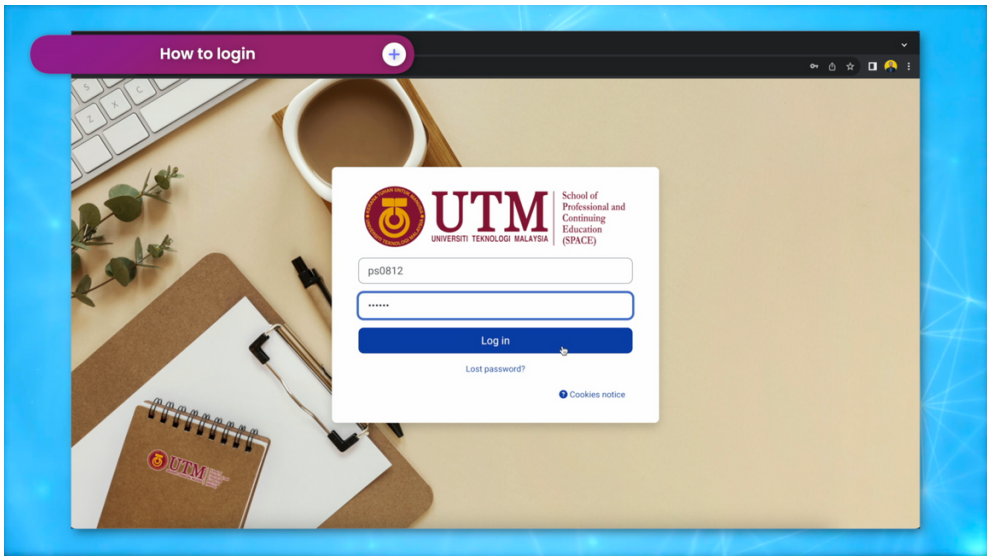


After clicking on your correct learning center, you'll be directed to the user login page.



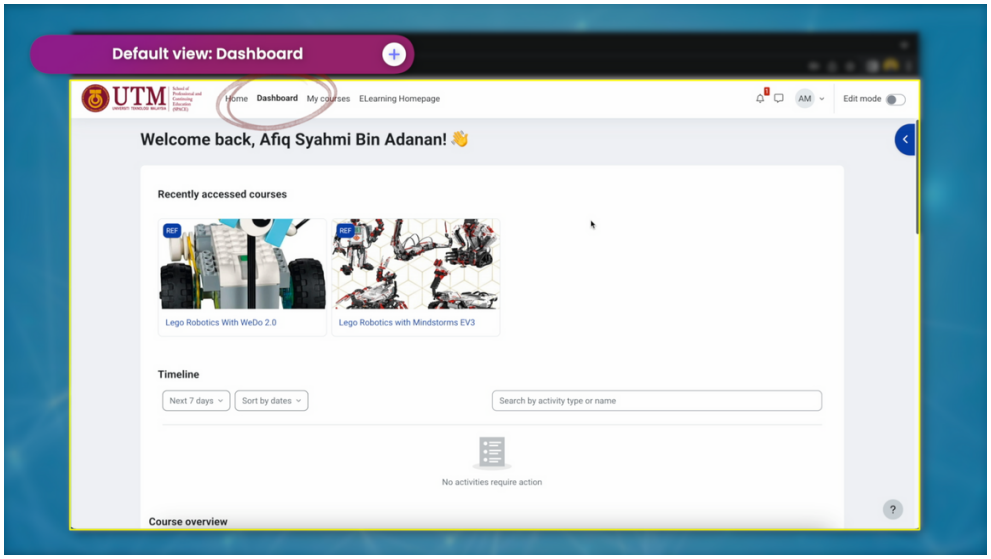
To continue, you can locate the login button at the top right corner and on the page footer.

2. Login Page



To log in, you'll need to enter your login credentials. Your username will be your Matriculation Number, and your password will be your ISID Number.

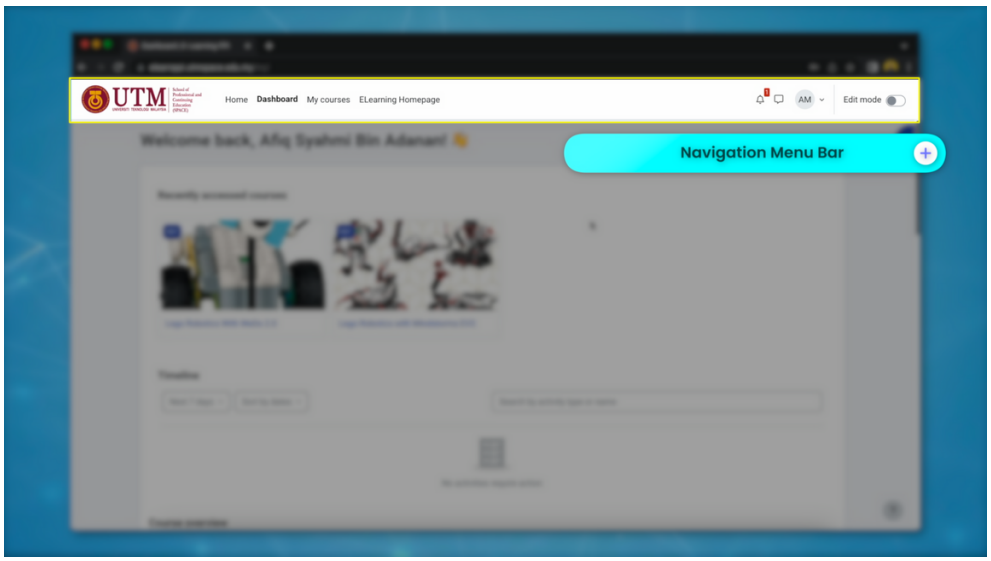
Once you've entered your login credentials correctly,
click on the Login button to proceed.



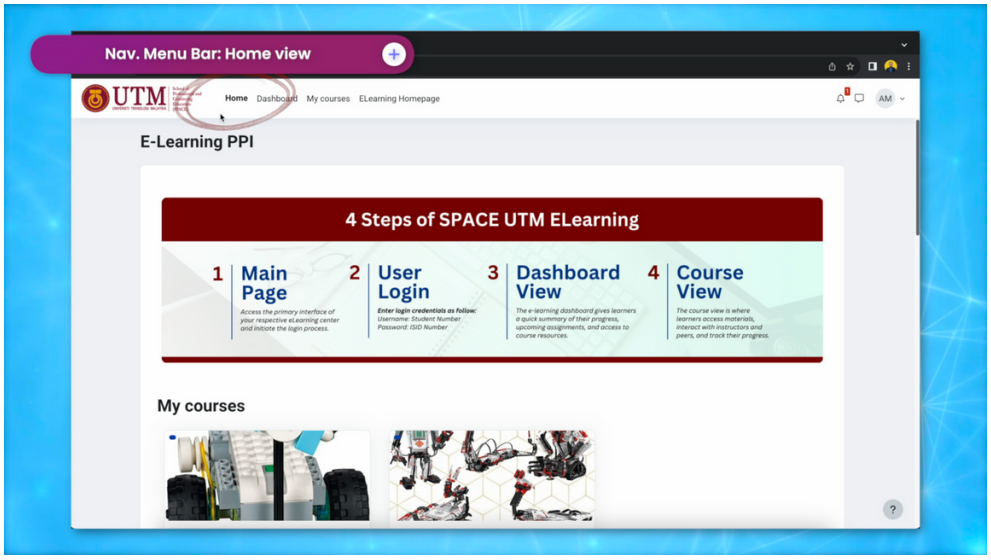
After successfully logging into the eLearning platform, the first thing you'll see is the default view of the Dashboard.

3. Navigation Bar

Home View



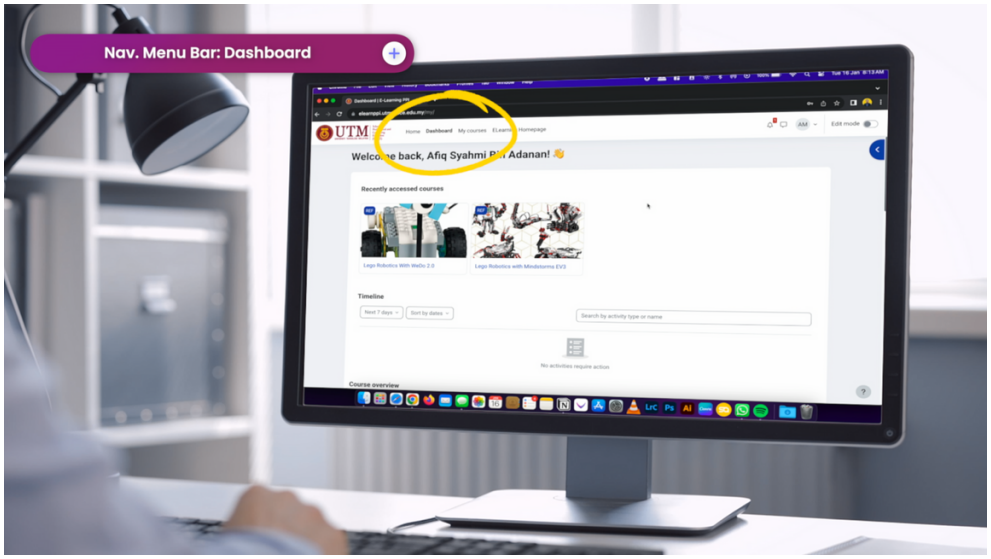
There are menu pages in the navigation bar that students need to become familiar with.



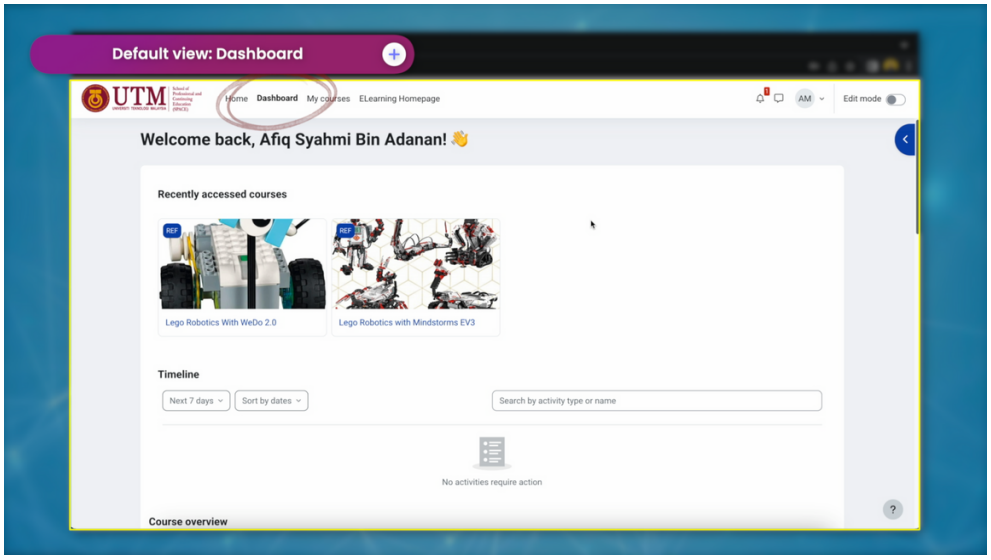
Firstly, on the left, the Home view. It displays your enrolled courses, announcements, and other information that the admin wants students to see.

3. Navigation Bar

Dashboard View



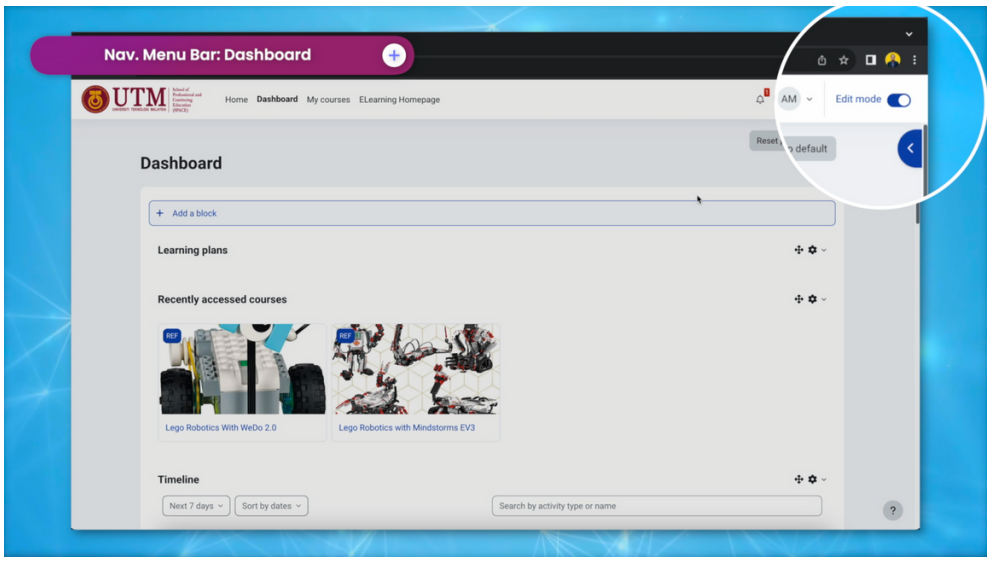
Next is the Dashboard view, which appears as the default view right after you successfully log in.



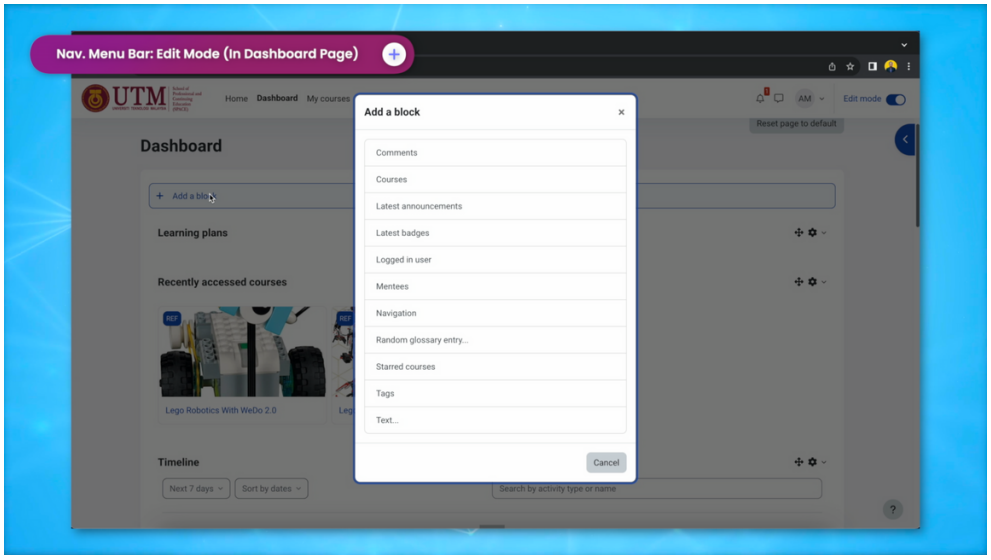
The Dashboard provides an overview of your activity and progress across all your courses.

3. Navigation Bar

Dashboard View - Edit Mode



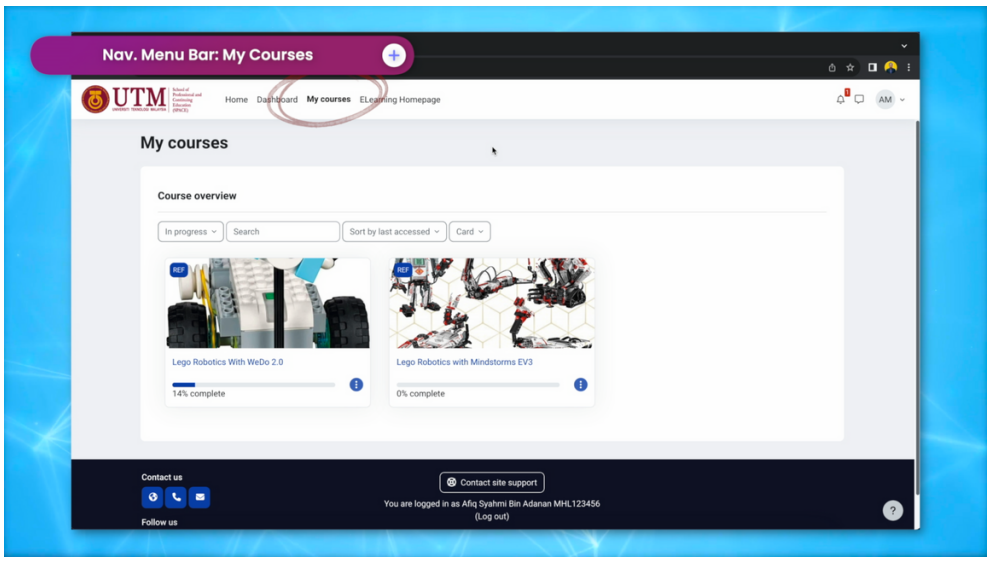
This view comes with a customizable block that you can set according to your preferences. Users can customize the block through the edit mode here.



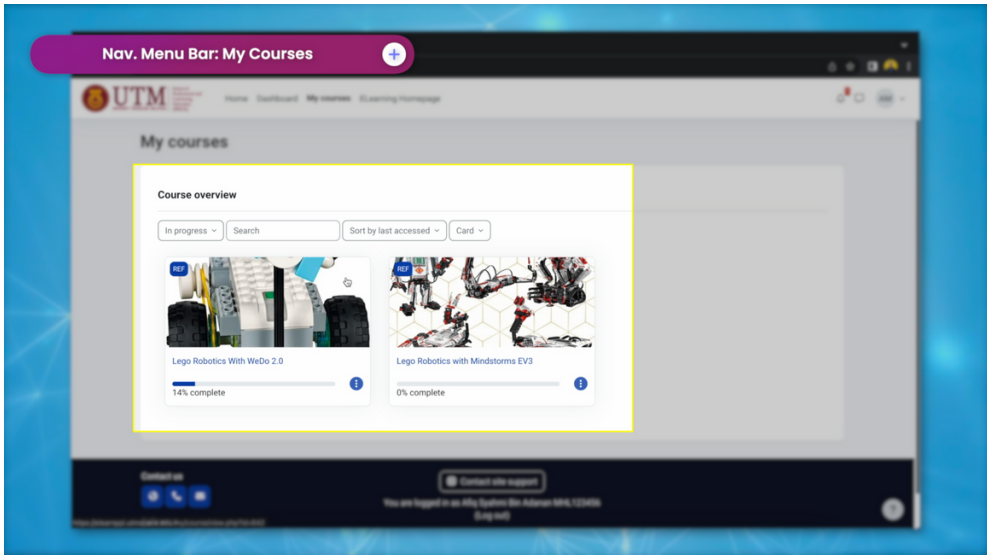
Please note that Edit mode is only available on the Dashboard page.

3. Navigation Bar

My Course View



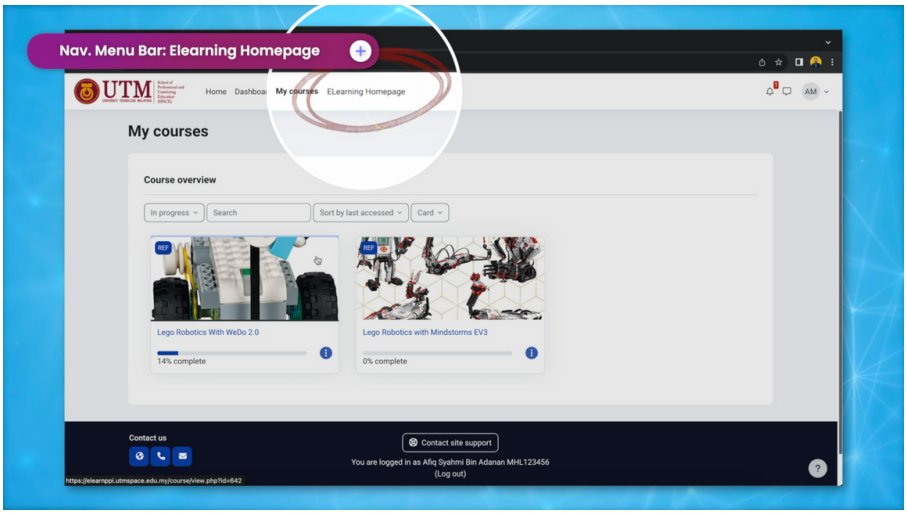
My Course view.

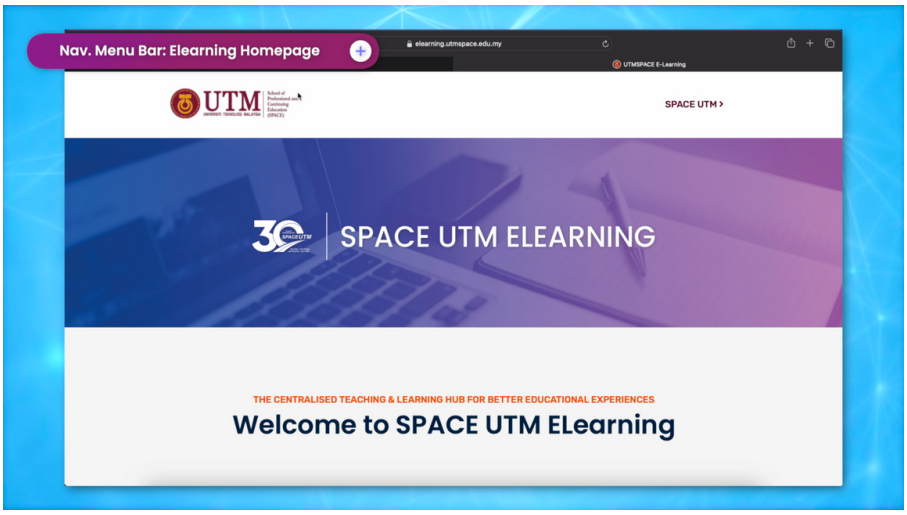


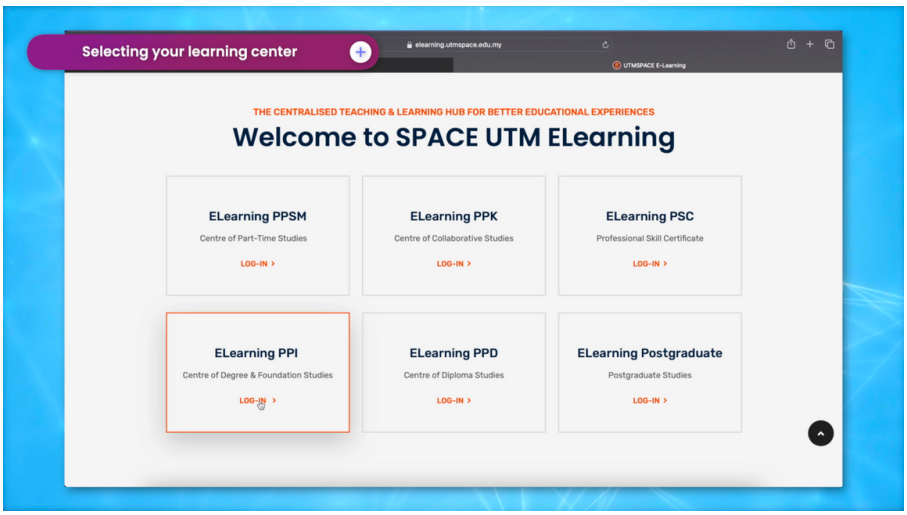
It shows the overview of the course that students are currently enrolled in. We will go back into it in detail after this.

3. Navigation Bar

Elearning Homepage



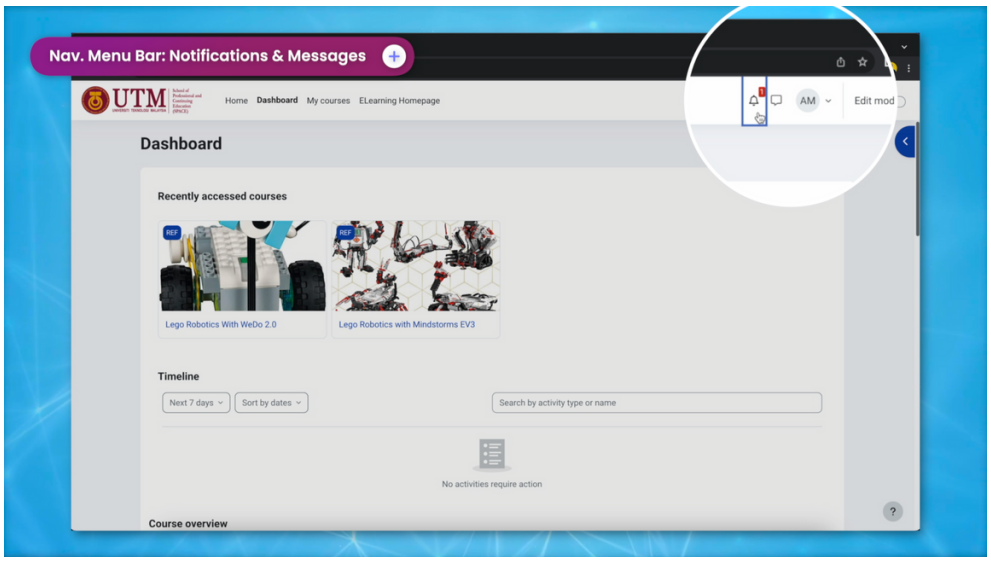




Elearning Homepage.
It serves as a link to redirect users to the main eLearning page.

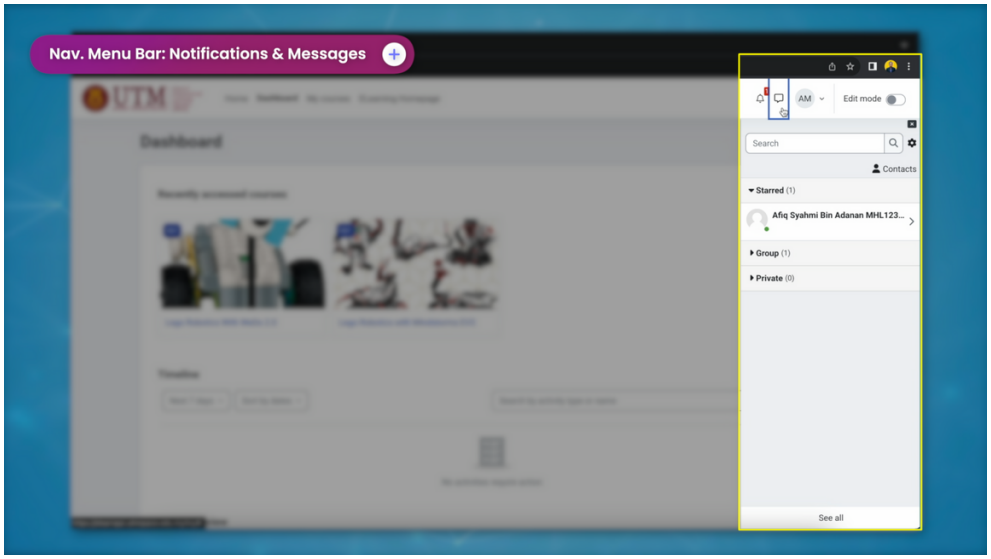
3. Navigation Bar

Natification & Message Menu



Notifications alert teachers, students, and other users about events in the eLearning platform, such as new forum posts, assignments needing grading, or badges awarded.

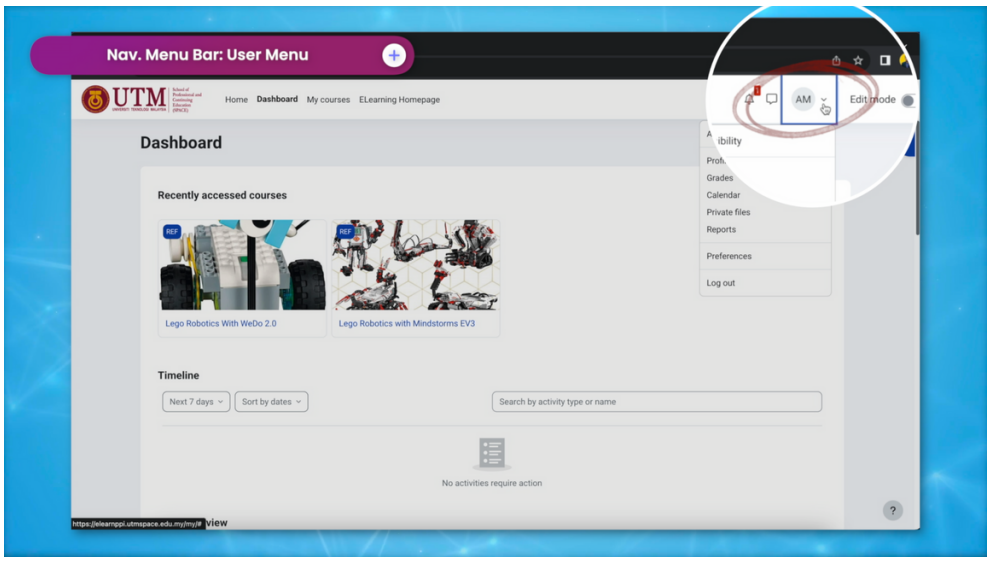
New notifications are highlighted with a number in the notifications menu at the top of the screen.



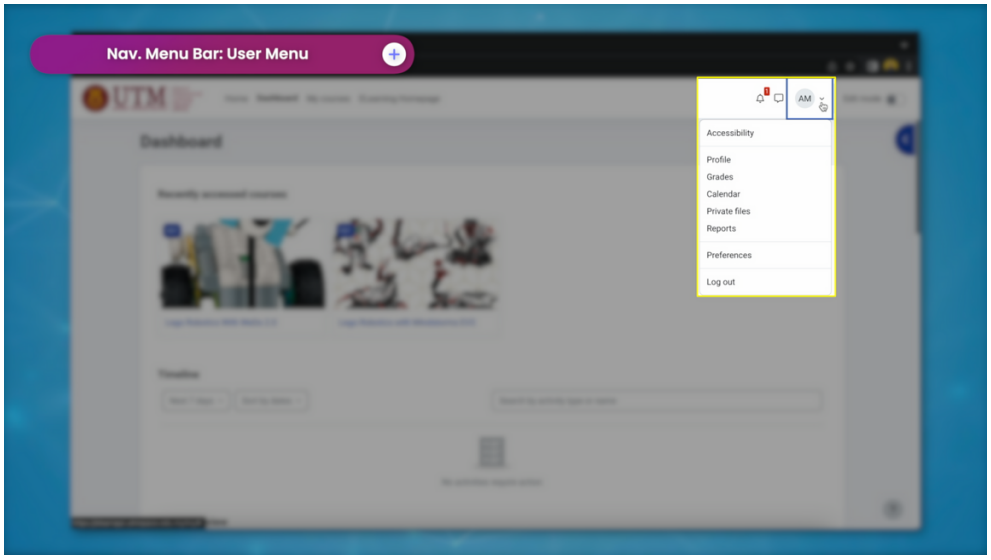
Meanwhile, Messaging allows teachers, students, and other users to send and receive private messages via this eLearning platform. This feature allows students to have discussions among other students.

3. Navigation Bar

User Menu



The User Menu can be accessed by clicking on the user icon.

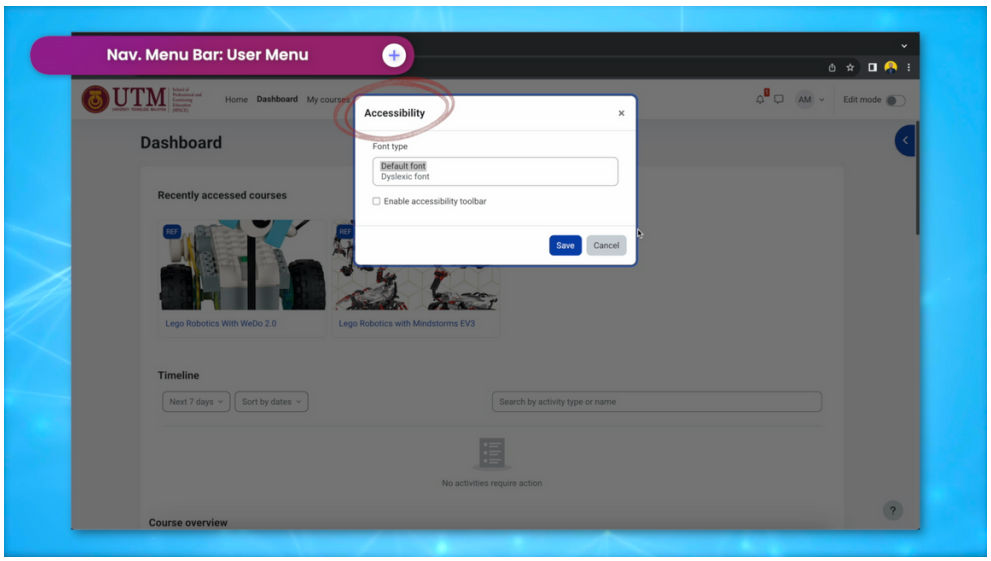


Here, you'll find various options related to your user profile, including Accessibility, Profile, Grades, Calendar, Private Files, Reports, Preferences, and Log out.

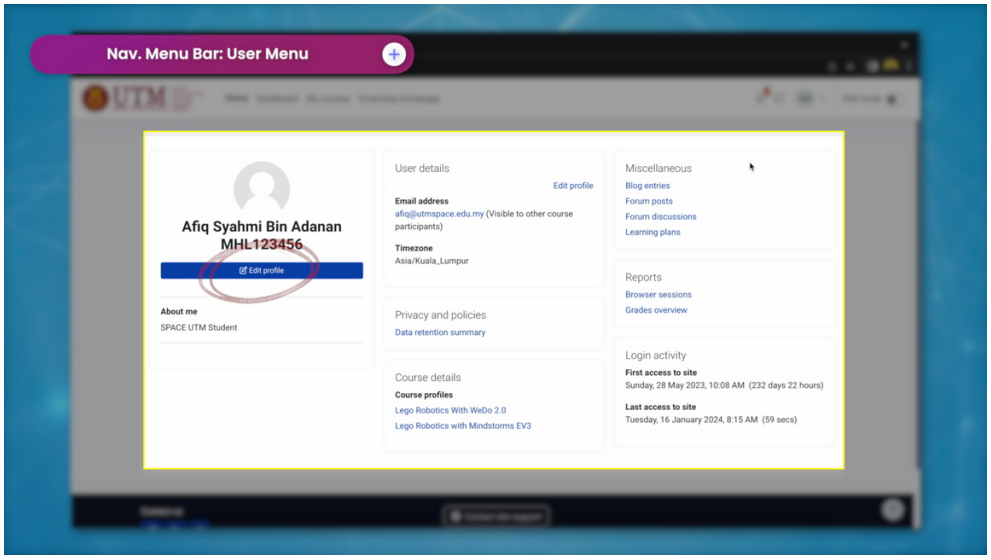
We will briefly explain each functionality.

3. Navigation Bar

User Menu



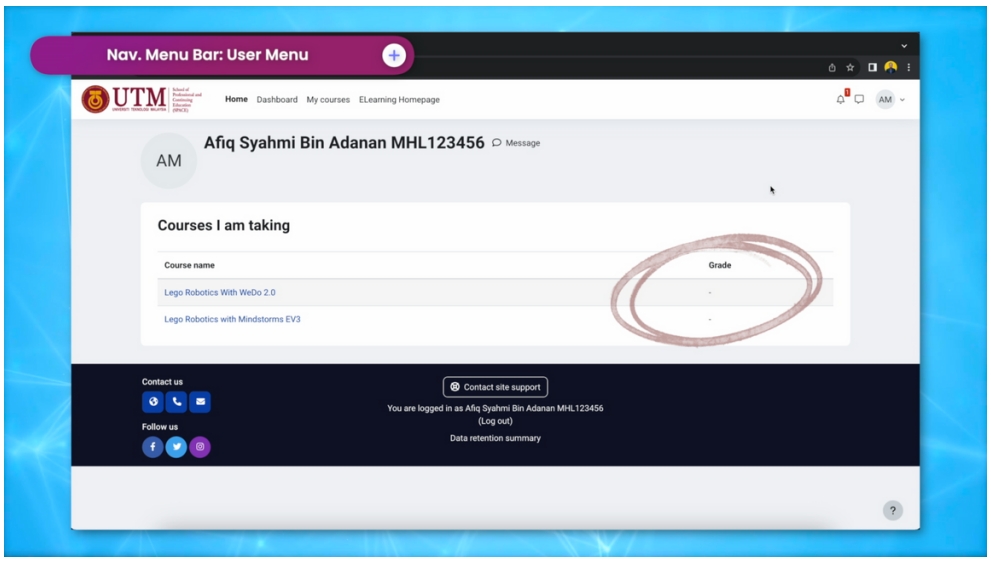
Accessibility is the setting for special needs, such as dyslexic font.



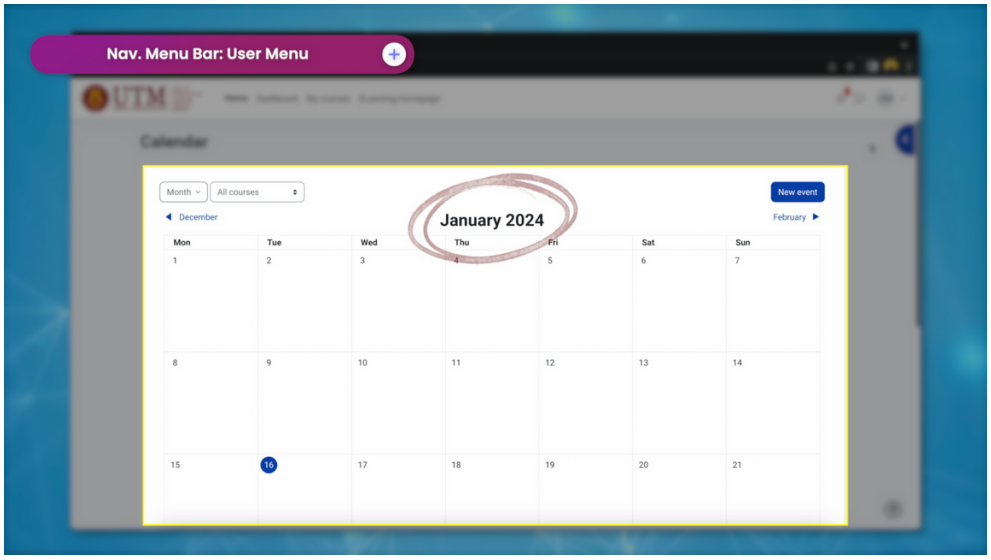
Profile. It allows you to edit your profile preferences.

3. Navigation Bar

User Menu



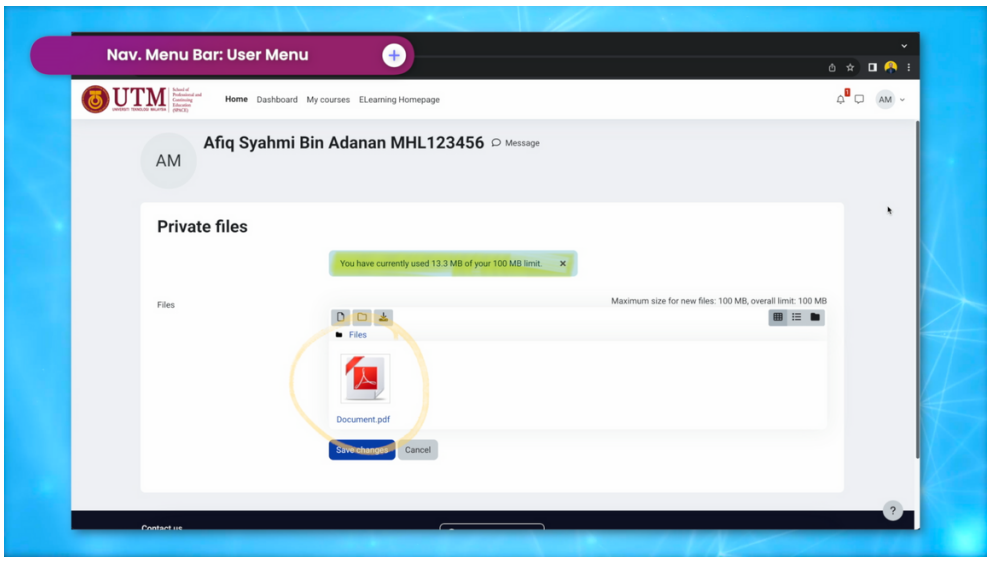
Grades. It show your grades based on enrolled courses.



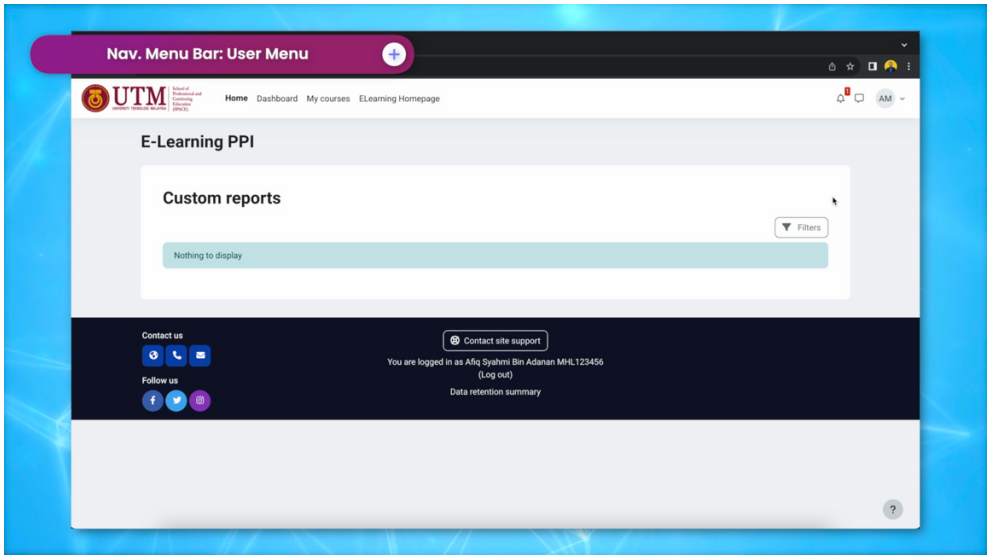
Calendar. It displays your calendar, showing your course agenda and assignments.

3. Navigation Bar

User Menu



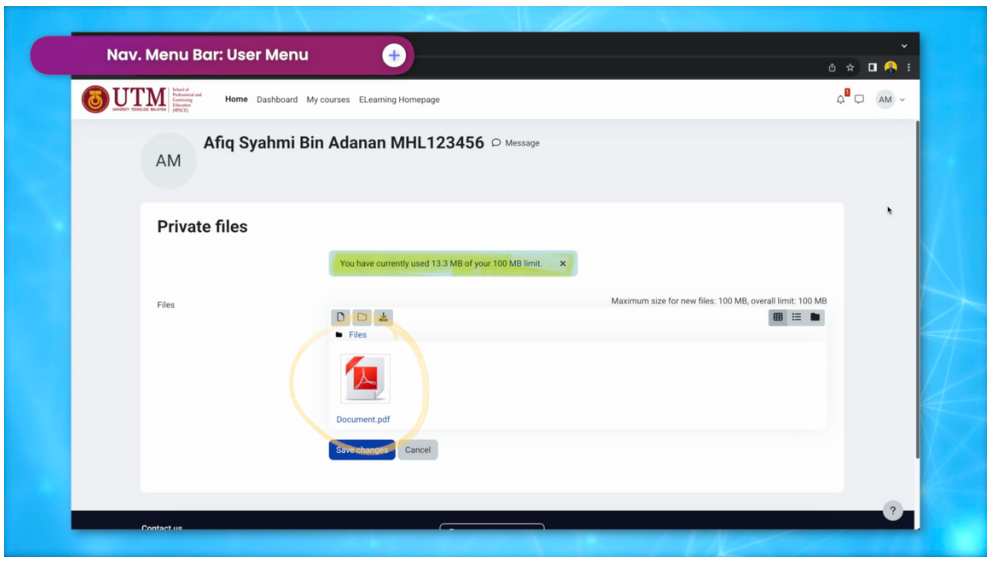
Private Files is a place for users to store course-related documents, such as lecture notes and slides.



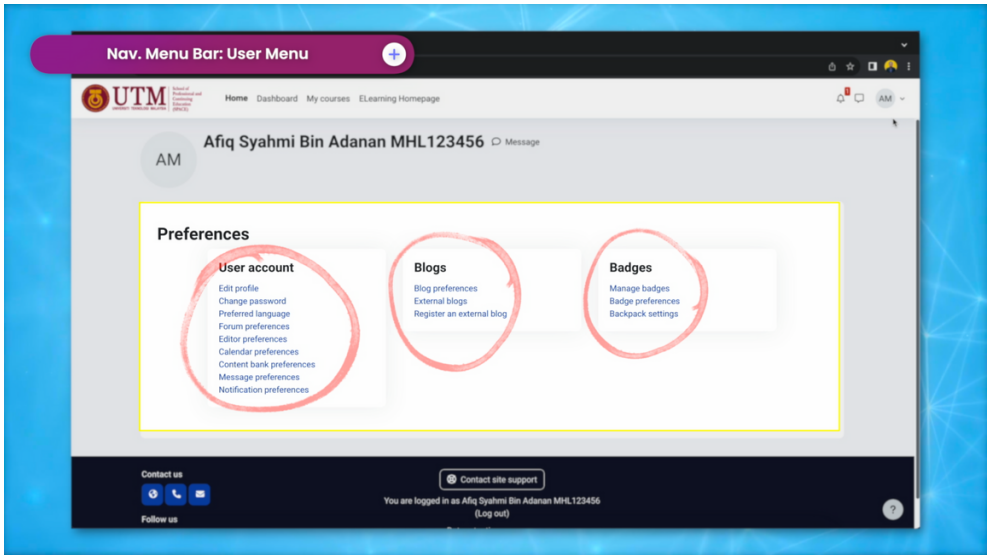
Report. It shows the report related to the activities in eLearning.

3. Navigation Bar

User Menu



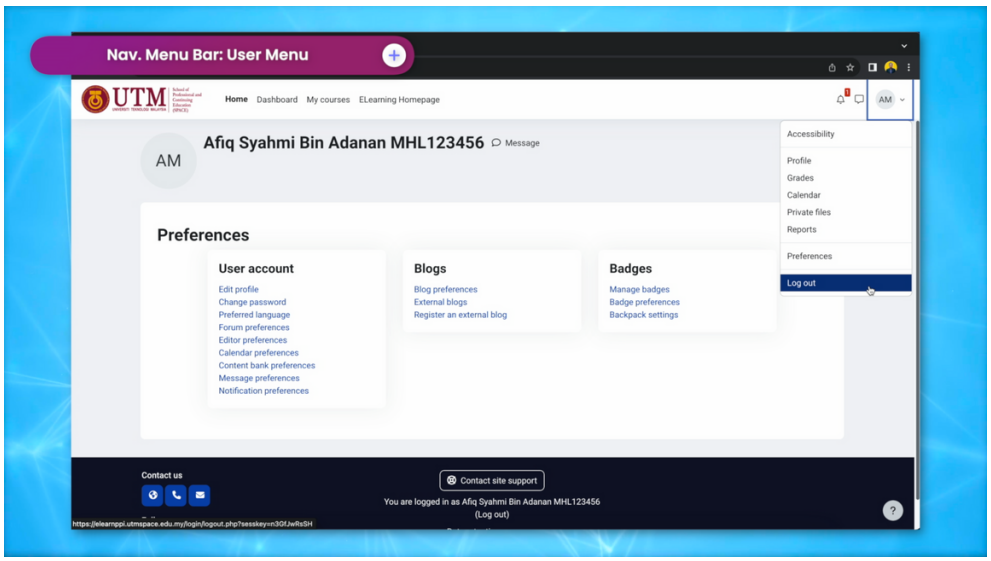
Private Files is a place for users to store course-related documents, such as lecture notes and slides.



The Preference section is a place where you can edit your preferences settings in this platform, such as your password, calendar view, notifications view, and more. You can explore these settings to suit your needs.

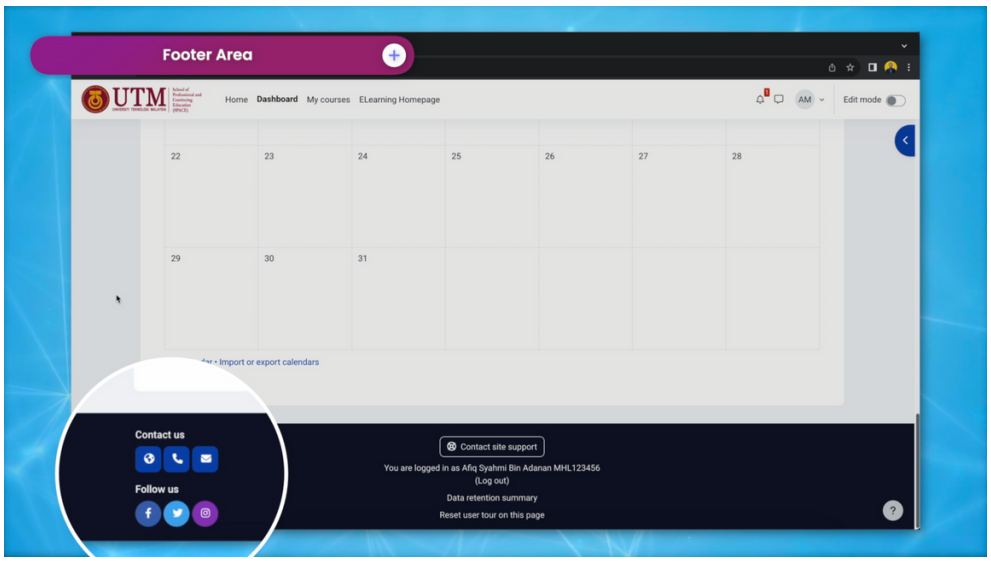
3. Navigation Bar

User Menu

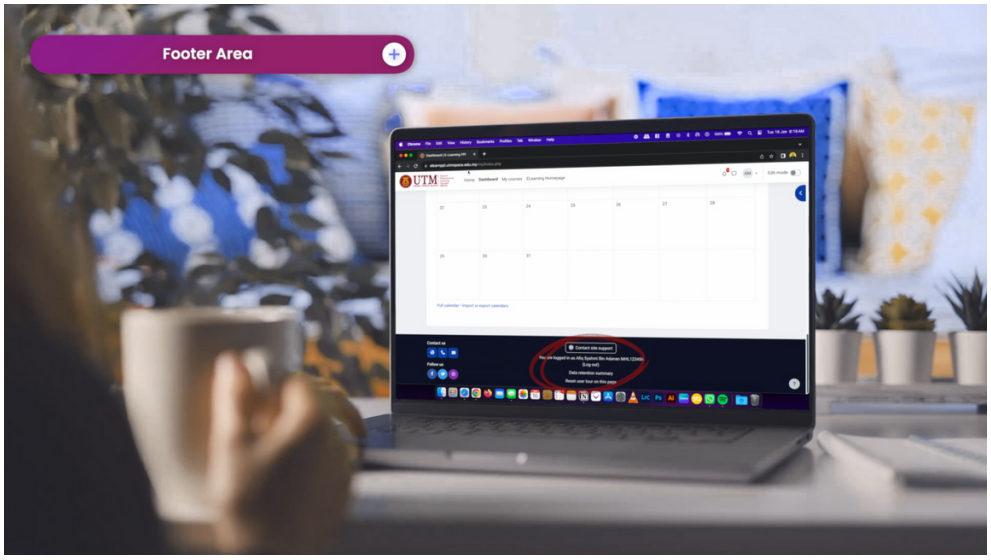


Lastly, the Log Out option allows you to log out as usual.

4. Footer

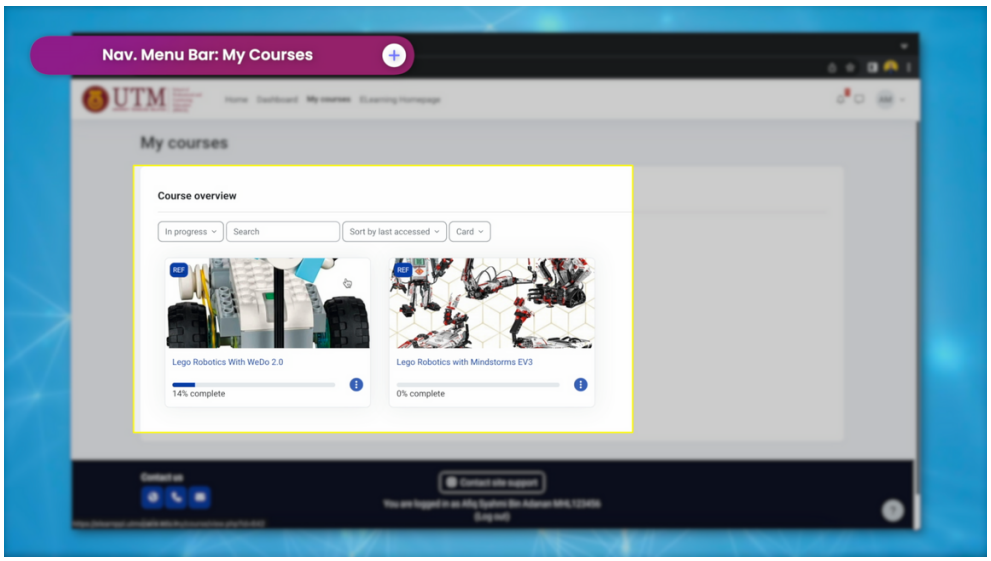


Footer area displays our 'Contact Us' section and our social media links.



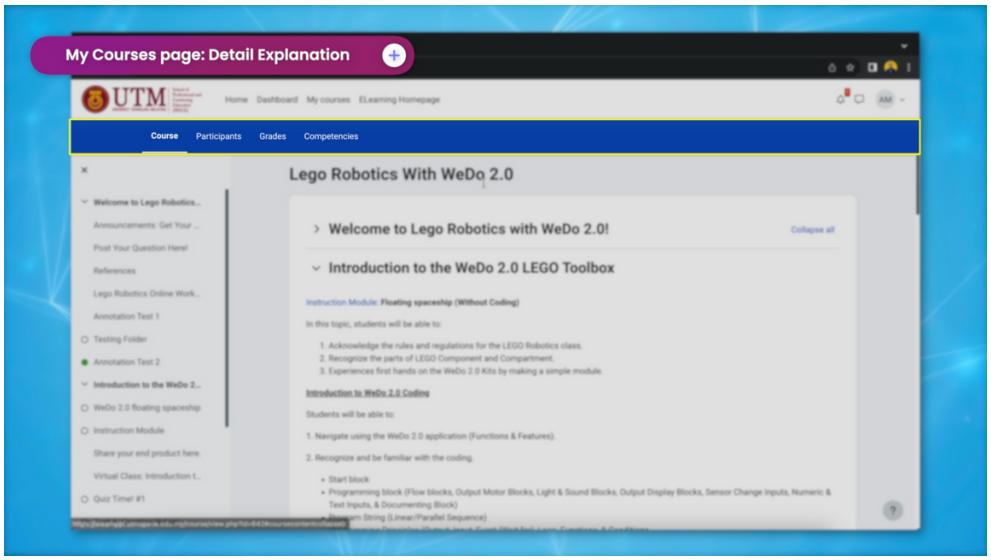
Users can also log out from their accounts here.

5. My Course (Detail Explanation)



We come back to the My Course page, which is the core feature of this platform. it provides an overview of the course that students are currently enrolled in.

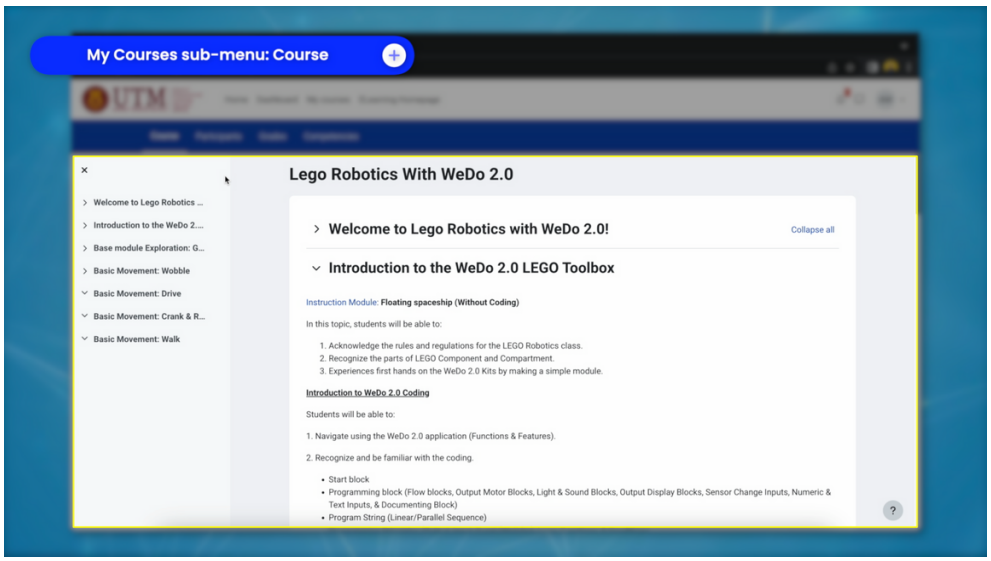
All courses are auto-enrolled based on your registration in SPACE UTM.



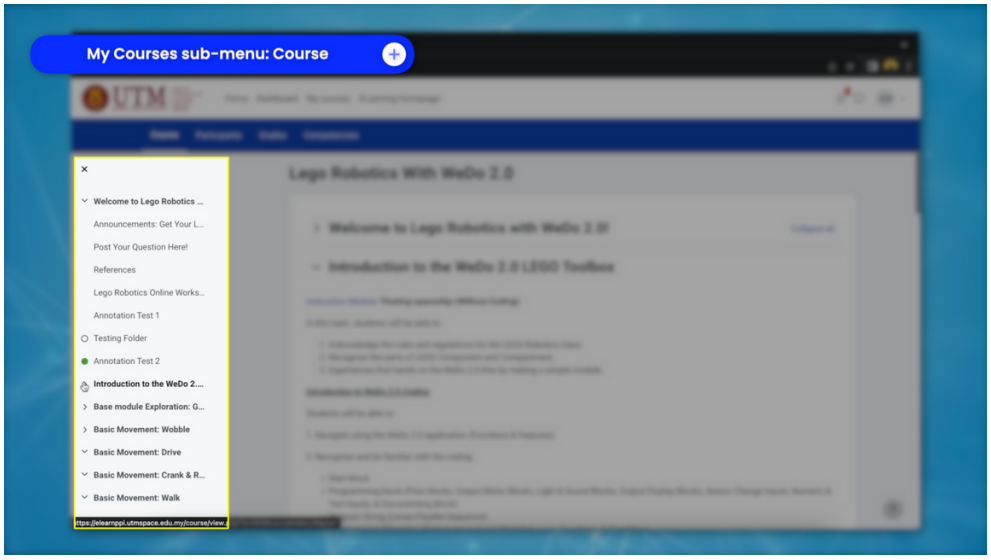
There is a second-tier navigation bar for My Courses, where the first section is Courses.

5. My Course (Detail Explanation)

Sub-menu: Course



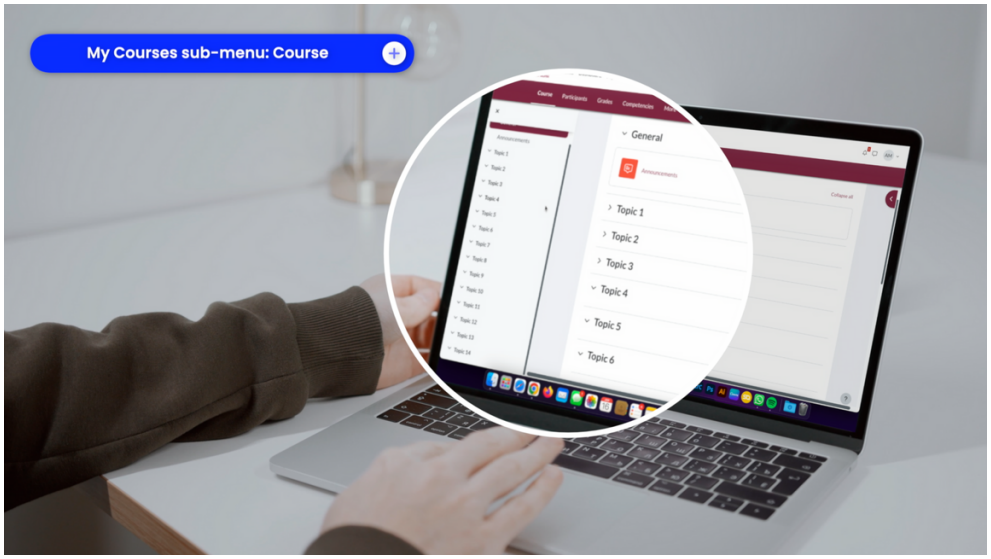
After clicking on the Course, the content will appear.



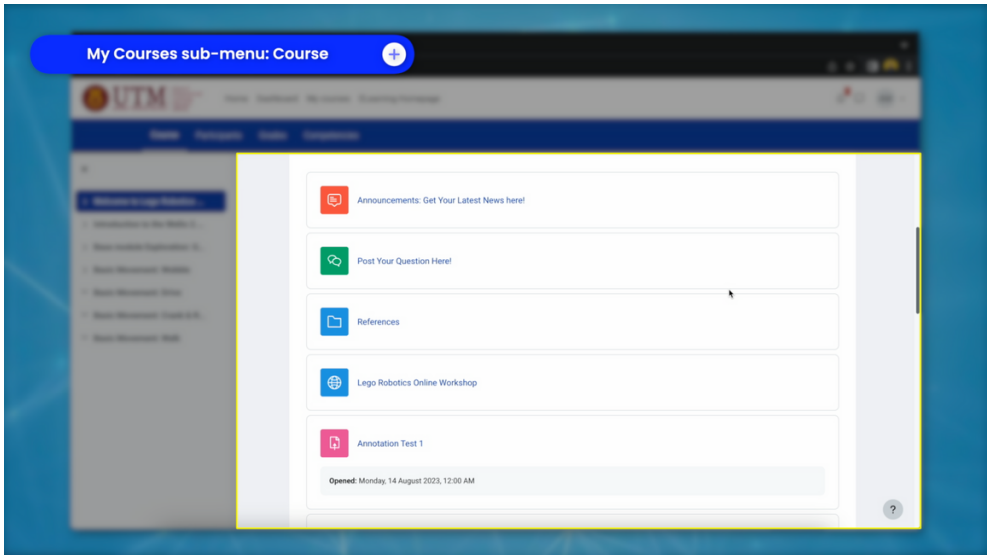
Then, you can navigate the interface of your course content,
which is on the left side. It includes an index list of all your course content.

5. My Course (Detail Explanation)

Sub-menu: Course



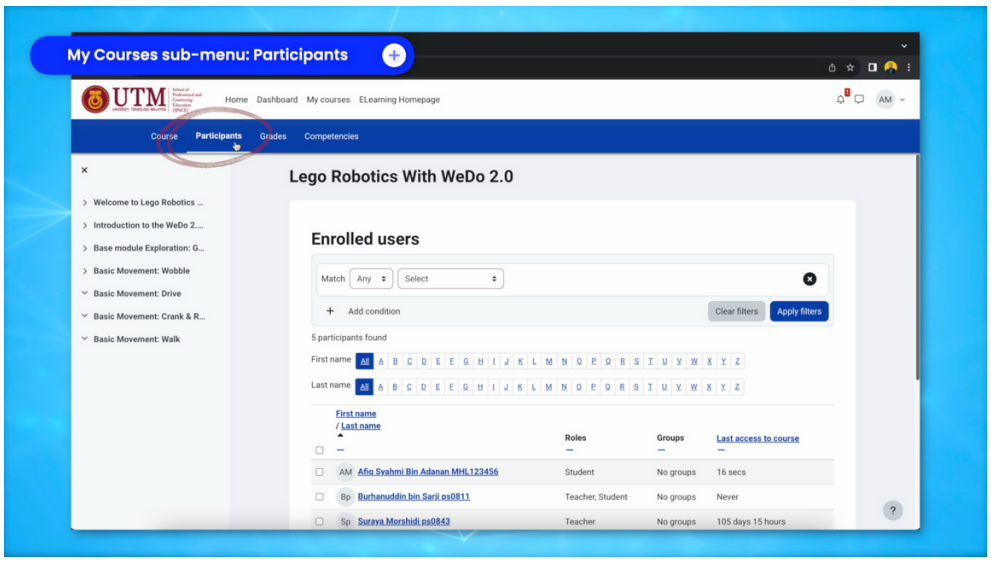
Normally, it shows either the course topic or is divided by the 14 weeks of the semester.



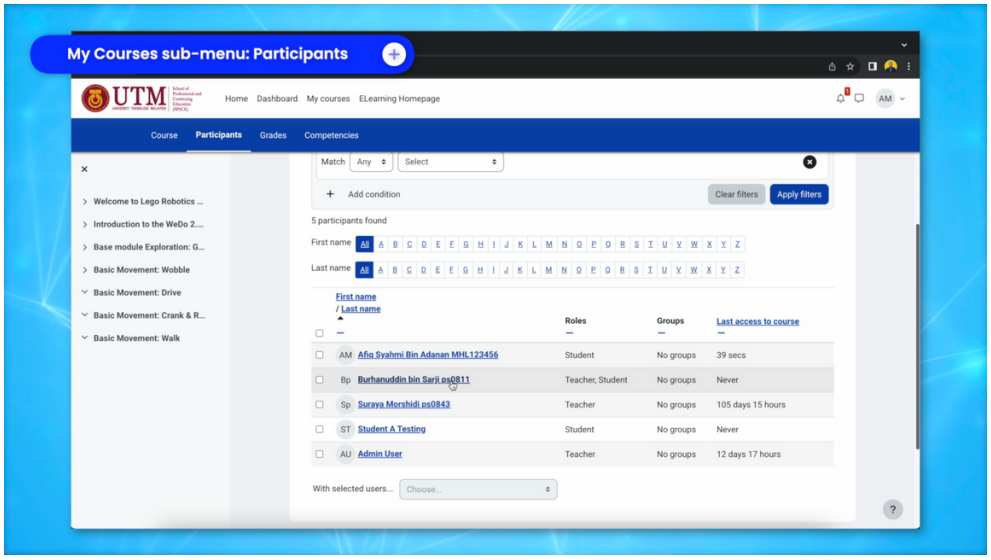
Here, students can experience online learning by conducting Q&A sessions, accessing study material, taking tests, submitting assignments, and participating in discussions.

5. My Course (Detail Explanation)

Sub-menu: Participants



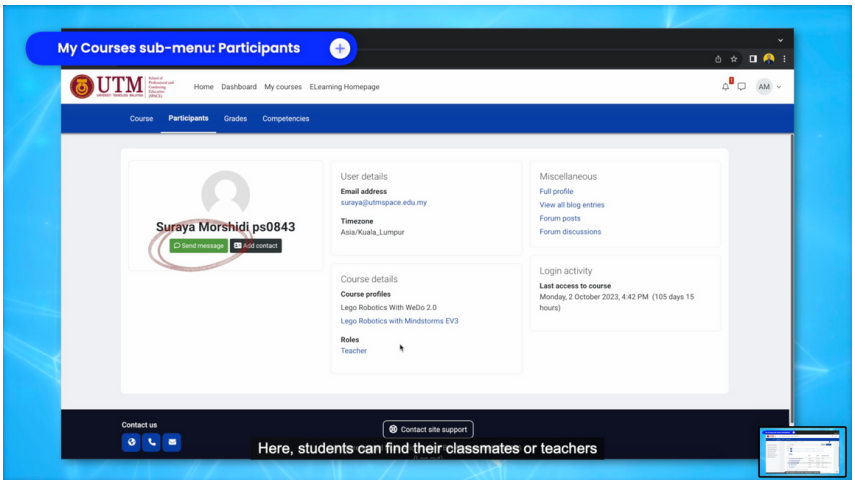
Participants.

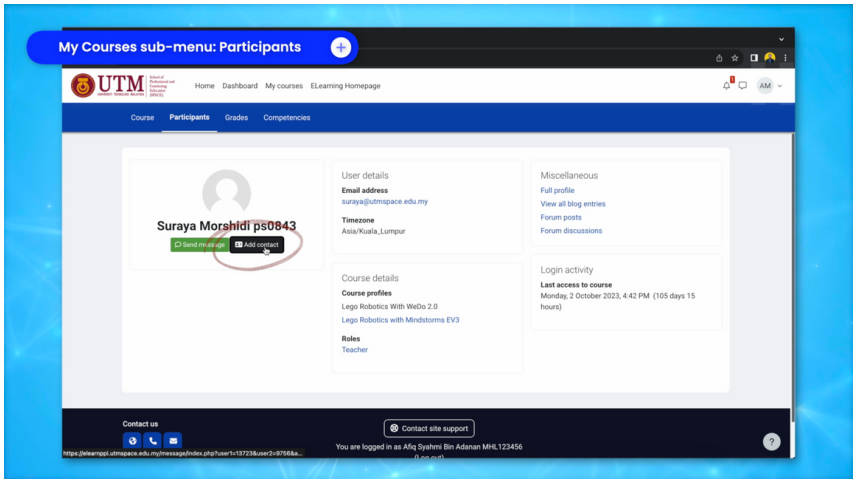


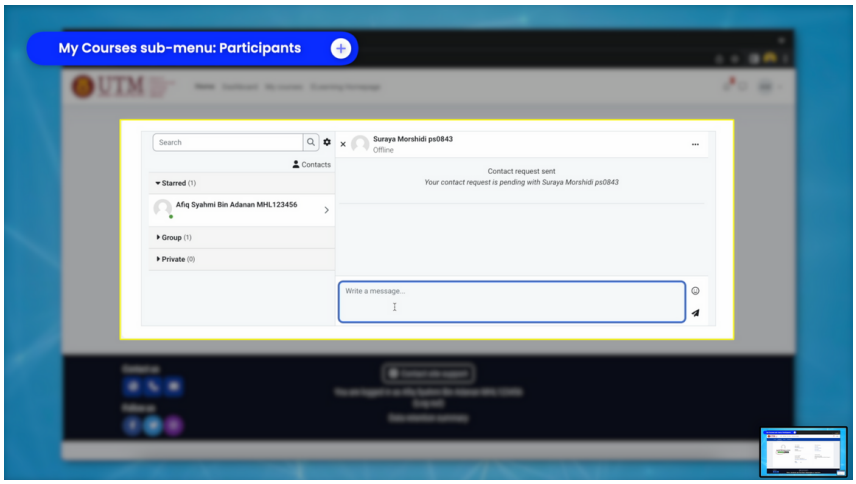
It shows enrolled students of the same course, who may be your classmates.

5. My Course (Detail Explanation)

Sub-menu: Participants



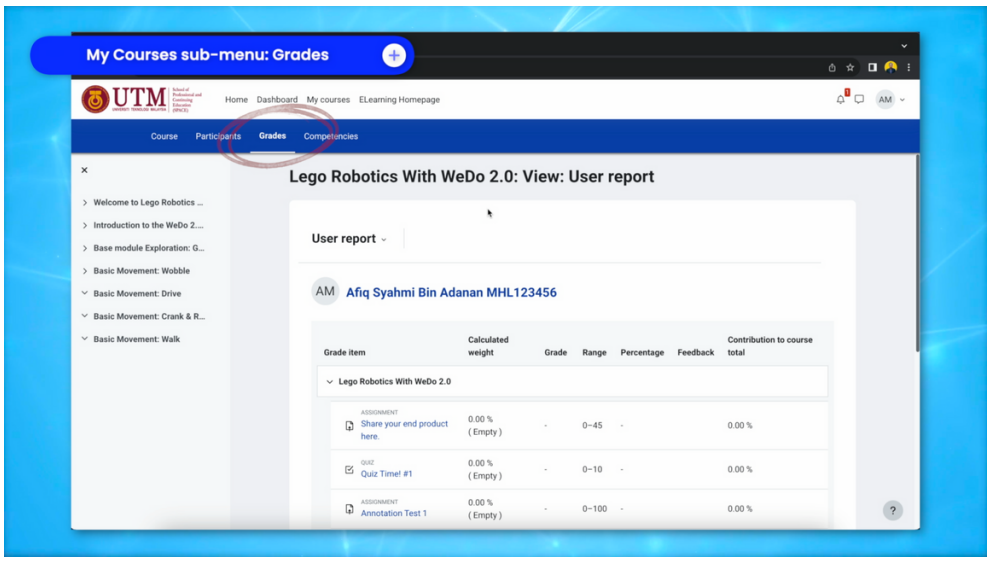




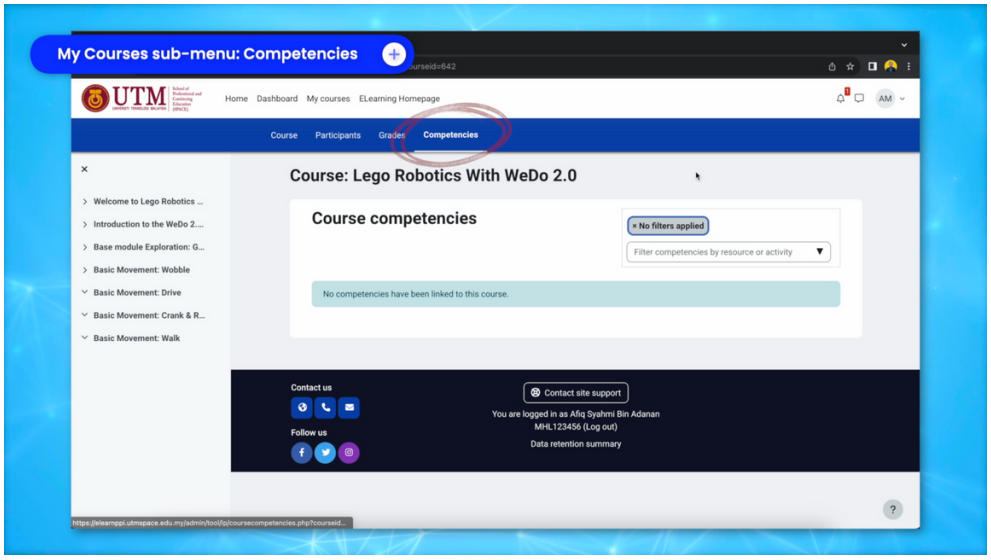
Here, students can find their classmates or teachers to send a message if they have any personal inquiries. User can also add your lecturer or friends as contacts, so you can send them a message later through the message menu.

5. My Course (Detail Explanation)

Sub-menu: Grades & Competencies



The next page is Grades. Here, you can see your grades for all the tests you took in eLearning, allowing you to track your progress.



Course Competencies. It is a feature where educators or administrators can define and manage the competencies or learning objectives associated with a particular course. Competencies are specific skills, knowledge, or abilities that students are expected to acquire during the course.
